RULES OF THE GAME

JoJo's Bizarre Tabletop is a tabletop role playing game featuring the power systems of JoJo's Bizarre Adventure. The combat systems, dice mechanics, and character building are all the same as D&D 5th edition, but there are some key differences. The 5th edition Backgrounds, Races, and Classes have been replaced with custom Passions, Races, and Classes, respectively. Multiclassing into non-Stand classes is allowed. For example a Stand User with a Power Type Stand might also choose to use The Ripple. However, each character can only have one Stand. Typically this means each character can only have one Stand Type, but Multi-Type Stands are allowed. The rules for this are detailed later in the Stands chapter.

JoJo's Bizarre Adventure is a manga series that has been running for several decades, and has hundreds of chapters. As such, there are dozens of things unique to the worlds that Araki creates. This guide contains many objects and rules inspired by Araki's writing, and has many mechanics and powers from across all parts. While there are no plot spoilers or details such as major character deaths, abilities and powers of certain characters or Stands may be shown. As such, if you are interested in JoJo's Bizarre Adventure at all, I would highly recommend getting caught up if you do not want any spoilers for the abilities of certain characters or power systems used in JoJo's Bizarre Adventure for Parts 1-8. You have been warned.

Rule Differences

This game has some rules that differ slightly from the typical 5th edition D&D game. Not only that, but a couple of things work completely differently. Several key changes are defined below.

Arcana Checks will be used to help you determine unexplained phenomena. A successful Arcana Check will reveal if an item has been infused with a special energy, or if it is just a trick that can be explained through conventional technology. For example, if you were to see a floating toaster, a successful Arcana check could reveal that it is floating because there are probably magnets inside, or it might clue you that something else is going on. As a Reaction, when you are affected/damaged by an unknown phenomenon that you suspect is an ability, you may make an Arcana Check in order to determine the function of the ability.

Initiative is calculated by adding your Dexterity AND Wisdom instead of just Dex. Stand stats can not be used to calculate initiative.

Talking is a free action. This module is based on JoJo's Bizarre Adventure after all, and it wouldn't be JoJo's without a side character commenting on everything happening, as it happens, even if the talking takes more than 6 seconds.

The Tile System is meter-based. Each 'square' represents 1 meter (3 feet).

Bonus Proficiencies are granted based on a character's Intelligence modifier. You may pick that number of Skills (minimum of one) and gain Proficiency in them. You may also swap some or all of these Bonus Proficiencies for Human Languages, Instruments, or Tool Proficiencies. These Proficiencies do not count against any Proficiencies gained by any Feats or from your Passion.

Armor Class (AC) is calculated as either $10 + \text{Dex} + \text{Con}$, $10 + \text{Dex} + \text{Wis}$, or $10 + \text{Wis} + \text{Con}$. You may still use armor from 5e if you wish, but this 'Unarmored Defense' will not stack with it.

Medicine Checks may be performed on a character with 0 Hit Points. If you succeed the Medicine Check (DC 10), they are not just stabilized, but also return to 1 Hit Point.

Inspiration has no upper limit in terms of how much you can have and can be given to another character over the course of a short or long rest.

Unarmed Strikes deal 1d4 Bludgeoning Damage. You may choose to add either your Strength OR Dexterity to the Attack and Damage Rolls.

Running a Game

Being a DM for this game is a lot more challenging than a standard D&D 5th edition game, but if done right, it can be just as fun. This is because rather than fighting a bunch of Monsters and a boss every once in a while, you have to create a character for every fight. Therefore, for encounters with enemy Stand Users you will need to create a unique stand for the enemy to have.

If you have Stand Users in your group things start to get complicated once Abilities come into play. Abilities vary Stand battles and make them interesting, and as DM you may have to help your players create a Stand Ability from scratch. You can allow your characters' abilities to be as powerful as you like, but make sure that each ability has some sort of weakness. A Stand that is stronger underwater, for example, might be weaker outside of it. A Power Type Stand may have great stats and an incredible ability, but greatly limited range.

Another thing to be aware of is the importance of Inspiration. They should be given when a particularly good joke is made, when roleplay is exceptional, or when players are creative in the use of their environments or abilities. On average players should receive 1-2 points per session. It is recommended to not give more than 3 points of Inspiration per session, but this is up to DM discretion.

Character Creation Checklist

When creating a character using this module, you want to make sure that they are built solidly and correctly. You should build your character roughly in this order:

1. Roll and assign Stats
2. Choose the Character's Passion
3. If your character isn't human, add the character's Racial Bonuses and Abilities
4. Pick the Character's Bonus Proficiencies, as well as Feats
5. Find what Class(es) your character will be playing and add the Abilities
6. Determine your character's Maximum Hit Points, Armor Class, and Stand Armor Class (If Applicable)
7. Talk with your DM regarding your Starting Equipment
8. If your character is a Stand User, find your Stand's stats and modifiers, as well as your Stand's Ability, and how it works

THE WORLD OF JOJO

The world of Jojo's Bizarre Adventure is extremely odd. Jojo's Bizarre Adventure typically takes place in a modern world filled almost completely with humans. While this is all fine and dandy, many people want some variety when building a character. This is where passions come into play.

PASSIONS

ACADEMICS

Academics do exactly as the name suggests. They study hard, or teach hard, using their intelligence and experience to do their jobs.

EXAMPLES

- Professors
- Accountants
- Teachers
- Programmers
- Scientists / Researchers

ACADEMIC TRAITS

Saving Throws. You are proficient in Intelligence and Constitution Saving Throws.

Ability Score Increase. Your Intelligence score increases by 2.

Academic Studies. You have proficiency with Arcana, History, and Investigation.

Additional Proficiencies. You gain an additional 2 proficiencies of your choice.

Languages. You can speak, read, and write up to two additional human languages.

ARTISTS

Using a variety of mediums, Artists create beautiful things to invoke feelings in people. Whether it be a comic, a painting, a sculpture, or a gourmet meal, Artists spend hours honing their craft.

EXAMPLES

- Writers
- Painters
- Sculptors
- Mangakas
- Acrobats
- Dancers
- Chefs

ARTIST TRAITS

Saving Throws. You are proficient in Dexterity and Intelligence Saving Throws.

Ability Score Increase. Your Dexterity score increases by 2 and your Intelligence score increases by 1.

Artist's Soul. You have proficiency in Sleight of Hand and Performance. You also gain Proficiency in a set of Artisan's Tools or an instrument of your choice.

Additional Proficiencies. You gain an additional 2 proficiencies of your choice.

ATHLETES

People who push their bodies to and past their physical limits in order to see the true potential of humanity.

EXAMPLES

- Olympians
- Professional Sports Players
- Warriors/Soldiers
- High School Quarterbacks

ATHLETE TRAITS

Saving Throws. You are proficient in two of the following saving throws of your choice: Strength, Dexterity, or Constitution.

Ability Score Increase. Your Strength score increases by 2 and your Dexterity score increases by 1.

Athletic Experience. You have proficiency in Athletics and Acrobatics.

Additional Proficiencies. You gain an additional 3 proficiencies of your choice

CON ARTISTS

Those who steal for their own greed. To attain power, money, or influence, these people take advantage of the human brain in order to push other people to achieve their own goals.

EXAMPLES

- Certain Lawyers
- Fake Fortune Tellers
- Most Politicians
- Scammers
- Cult Leaders

CON ARTIST TRAITS

Saving Throws. You are proficient in Charisma and Intelligence Saving Throws.

Ability Score Increase. Your Charisma score increases by 2.

Award-Winning Smile. You have proficiency in Deception, Persuasion, Intimidation, and Religion.

Additional Proficiencies. You gain an additional 1 proficiency of your choice.

Languages. You can speak, read, and write up to three additional human languages.

HARD LABORERS

Some people make a living performing physically taxing jobs. Without them, society would not function.

EXAMPLES

- Construction Workers
- Garbage Collectors
- Coal Miners

HARD LABORER TRAITS

Saving Throws. You are proficient in Constitution and Dexterity Saving Throws.

Ability Score Increase. Your Constitution score increases by 2 and your Dexterity and Strength scores increase by 1.

Grit. You may choose to be proficient in two of the following: Athletics, Acrobatics, Animal Handling, or Intimidation.

Additional Proficiencies. You gain an additional 3 proficiencies of your choice

HOSPITALITY WORKERS

A person who makes their living serving people, using their training and wit to help them.

EXAMPLES

- Waitstaff
- Receptionists
- Secretaries
- Salespeople

HOSPITALITY WORKER TRAITS

Saving Throws. You are proficient in Wisdom and Charisma Saving Throws.

Ability Score Increase. Your Wisdom score increases by 1 and your Charisma score increases by 1.

People Person. You have proficiency in Insight, Perception, and Persuasion.

Additional Proficiencies. You gain an additional 1 proficiency of your choice.

Languages. You can speak, read, and write up to two additional human languages.

LEADER

Leaders are those who are able to sway others to help them perform great deeds, whether they be selfish or selfless. They are able to take charge of a situation and guide others along a specific path.

EXAMPLES

- Heads of a Community
- Heads of a Movement
- Some Politicians
- Royalty

LEADER TRAITS

Saving Throws. You are proficient in two of the following saving throws of your choice: Intelligence, Wisdom, or Charisma.

Ability Score Increase. Your Intelligence, Wisdom, and Charisma scores increase by 1.

Leadership Experience. You have proficiency in Insight, Performance, and Persuasion.

Additional Proficiencies. You gain an additional 2 proficiencies of your choice.

MEDICAL EXPERT

Medical Experts use their superior intellect, reasoning, and patience to assist the injured. Medical Experts have immense knowledge of anatomy, knowing how living things function in almost every way.

EXAMPLES

- Doctors
- Nurses
- Surgeons
- EMT Operators
- Veterinarians

MEDICAL EXPERT TRAITS

Saving Throws. You are proficient in Intelligence and Wisdom Saving Throws.

Ability Score Increase. Your Intelligence score increases by 2 and your Wisdom score increases by 1.

Medical Expertise. You have proficiency in Animal Handling, and expertise in Medicine.

PERFORMERS

Those who perfect a craft in order to inspire, but also to hear the roar of the crowd.

EXAMPLES

- Stand Up Comedians
- Actors
- Musicians
- DJs

PERFORMER TRAITS

Saving Throws. You are proficient in Charisma and Constitution Saving Throws.

Ability Score Increase. Your Charisma score increases by 2 and your Constitution score increases by 1.

Crowd Pleaser. You have proficiency in Deception, Persuasion, and of course, Performance. You are also proficient in up to two instruments of your choice.

Additional Proficiencies. You gain an additional 2 proficiencies of your choice.

STUDENTS

Students aim to learn about and gain experience in a wide variety of things, exploring what they'd like to do with their future.

EXAMPLES

- High School Students
- College Students

STUDENT TRAITS

Saving Throws. You are proficient in any two Saving Throws of your choice.

Ability Score Increase. You get +2 to one stat of your choice, +1 to three stats of your choice, and -1 to two stats of your choice.

Constant Improvement. You have proficiency in any four skills of your choice.

Languages. You can speak, read, and write up to two additional human languages.

SURVIVALISTS

Someone who has chosen to forgo most parts of modern society, instead choosing to live a simpler, more reclusive life.

EXAMPLES

- Wilderness Survivors
- Rural Subsistence Farmers
- Hunters
- Gangsters
- Monks

SURVIVALIST TRAITS

Saving Throws. You are proficient in Constitution and Wisdom Saving Throws.

Ability Score Increase. Your Wisdom score increases by 2 and your Constitution score increases by 1.

Will to Thrive. You have proficiency in Insight, Perception, Animal Handling, and Survival. You also gain proficiency in the use of the Herbalism Kit.

Additional Proficiencies. You gain an additional 1 proficiency of your choice.

THIEVES

Those who must make a living taking from the more fortunate. Through Stealth, Intimidation, or Speed, Thieves take to sustain the needs of themselves or those they hold close.

EXAMPLES

- Robbers
- Muggers

THIEF TRAITS

Saving Throws. You are proficient in Dexterity and Charisma Saving Throws.

Ability Score Increase. Your Dexterity score increases by 2 and your Charisma score increases by 1.

Street Smarts. You have proficiency in Sleight of Hand, Stealth, and Intimidation. You also gain proficiency in Thieves' Tools.

Additional Proficiencies. You gain an additional 1 proficiency of your choice.

TRAINED LABORERS

Someone who has studied for years in order to hone their craft. They use their Strength along with their experience in order to accomplish their tasks.

EXAMPLES

- Mechanics
- Blacksmiths / Metal Workers

TRAINED LABORER TRAITS

Saving Throws. You are proficient in Strength and Intelligence Saving Throws.

Ability Score Increase. Your Strength score increases by 2 and your Intelligence score increases by 1.

Labor Experience. You have proficiency in Athletics, Arcana and Investigation. You also gain proficiency in a set of Artisan’s Tools of your choice.

Additional Proficiencies. You gain an additional 2 proficiencies of your choice.

TRAVELERS

Those who travel immense distances, using their superior willpower and trained body to withstand immense pressure over long periods of time.

EXAMPLES

- Explorers
- Triathletes
- (Most) Ripple Users

TRAVELER TRAITS

Saving Throws. You are proficient in Wisdom and Constitution Saving Throws.

Ability Score Increase. Your Constitution score increases by 3 and your Wisdom score increases by 1.

Trial and Error. You have proficiency in Survival and Religion.

Additional Proficiencies. You gain an additional 2 proficiencies of your choice.

STANDS

Stands are one of, if not, the most iconic part of JoJo's Bizarre Adventure. Most PC's, NPCs, and enemies that you meet or create will most likely be Stand Users. A Stand is the physical manifestation of the soul's fighting spirit. If a person has a strong will to fight, and they are exposed to the right catalyst, they may manifest their Stand Ability in some form.

There are many ways to obtain a Stand. Very few people are lucky enough to be born with this power, passed down genetically. Some gain power when a relative gains a Stand as well, but this is a rare occurrence. In some cases, a relative that suddenly gains a Stand may also give their relatives a fever, putting them on the track to obtaining a Stand. One of the most common methods of obtaining a Stand comes from getting pierced by a Stand Arrow.

One of the most common methods of obtaining a Stand comes from getting pierced by a Stand Arrow (see Artifacts and Items). When a living creature's skin is pierced by the Arrow, they will develop a fever over the course of several days. The severity and duration of the fever is dependent upon the physical build and fighting spirit of whatever or whoever catches it. For example, Jotaro Kujo barely notices a difference in his daily routine and begins to take note of his Stand very quickly afterwards. However, Ermes, another very powerful Stand User, was rendered completely comatose for almost an entire week. Regardless of the length of fever, if you have the fighting spirit necessary to develop a Stand after the fever has run its course, you recover and your Stand begins to manifest. However, if you do not have the ability to develop a Stand, you simply obtain the effect: Alien Virus.

Rules of Stands

- A single person can only have one stand (Hive Stands are the same Stand, just split up into much smaller parts)
- Whatever Damage is inflicted upon the Stand or the User is also dealt to the other
- Only Stand Users can sense Stands
- Stand Users can interact and speak with spirits or ghosts
- Only Stands can defeat Stands, physical objects simply pass through or bounce off of all Stands except Enhancement or Independent types
- If the User is knocked unconscious and the Stand is not a Revenge-Type, the Stand and it's Ability will disappear until resummoned by the User when conscious
- Stand Energy is only consumed if the Ability actually affects something
- If a Stand User fights a Non-Stand User, the Stand User gets Advantage on all Attacks using their Stand
- If a Stand User is Surprised and does not have their Stand active, they may not use it to defend themselves.

STAND WHISPERS

Those who have the potential to gain a Stand, and are destined to in the future, may have what is known as a "Stand Whisper." This is an Ability that manifests itself before the User is exposed to the event that gives them their Stand. Examples of this are: Joseph's "Your Next Line Is" being a form of mind reading, Child Giorno's Ability to grow grass, and Mista's ability to dodge bullets fired point-blank. These abilities are often subconscious, but the User can utilize them to their full potential if they take notice of how the ability functions. These Whispers disappear after an event that would expose somebody to a Stand, and their Ability soon becomes replaced with a regular Stand Ability.

STAND STATS

ABILITY CONVERSION CHART

| Ability | Stand Ability |
|--------------|---------------|
| Strength | Power |
| Dexterity | Precision |
| Constitution | Durability |
| Wisdom | Speed |
| Intelligence | Range |
| Charisma | Stand Energy |

Abilities and Stand Energy: The amount of Energy your stand has is based on their Stand Energy Mod. Normal Abilities cost 1 point, Special Abilities cost more depending on the Stand type, and Abilities that manipulate Space or Time cost double the Energy they normally would. Stand Energy always fully replenishes when outside of combat. 1 Stand Energy is also replenished when you take the dodge action.

Stand Range: Your Stand may move a number of meters away from you equal to its Range Mod, with a minimum of 1m.

Stand Damage Reduction: Stands have natural resistance against damage, determined by their Durability Mod. Your Stand can resist that many points of damage per round. For example, a Stand with a 100 Durability would be able to resist 10 points of damage per round, and a Stand with 40 would only be able to resist 4. Physical Attacks that hit Stands deal no damage, unless specifically stated otherwise. The only types of damage that may deal damage to Stands is damage dealt by Stands, or the Abilities of Stands. Your Stand's Damage Reduction resets at the top of each round of Initiative.

Stand Movement: Stands have a Movement Speed equal to twice their Stand's Speed Mod in meters, or a Movement Speed equal to their User, whichever is higher. Stands and Users each have a separate Movement Action. Independant-Type Stands can only move the base 10 Meters that a regular human can, unless they have a specific ability that allows them to increase it.

STAND STAT MODIFIERS

Stand Stats are based on the User's Stats. To get the Modifiers for these Stats, simply divide their score by 10.

Stand Saving Throws: If you are a Stand User and your Stand is within 2 Meters of you, when you make a Strength, Precision, or Constitution Saving Throw, you may instead use your Stand's Modifier to roll for you (Strength = Power, Dexterity = Precision, Constitution = Durability). You may still add your Proficiency Bonus to any of those three Saving Throws you are Proficient in. Intelligence, Wisdom, and Charisma Saving Throws are all rolled normally, without the assistance of your Stand.

Stand AC: Stand AC works the same way as regular AC, but using the Stand's Stats. Keep in mind the 3 ways to calculate AC mentioned on the Rules page. When your Stand is within 2 Meters of you your Stand can protect you from attacks using its AC. Like normal, if an Attack roll is less than your AC it misses. However, if the Attack roll is between your Stand AC and your own AC it hits your Stand instead, allowing you to apply your Stand's Damage Reduction. Additionally, if the damage type is Non-Stand, it simply bounces off of your Stand or phases through it. An Attack roll higher than your Stand AC is a direct hit to the User.

ATTACKING

Your Stand's normal Attacks (typically punches) are determined similarly to regular Attacks. Roll a d20 and add the Power or Precision Mod of your Stand and your Proficiency Bonus to determine if the attack hits. The amount of damage dealt is based off of your Stand's Attack Dice plus your Power (NOT Precision) Mod.

For User Attacks, roll a d20 and add your Strength or Dexterity Mod, whichever is higher. Every Unarmed Attack deals 1d4 + Str damage. **Regular physical attacks DO NOT AFFECT STANDS** (except for Enhancement or Independent Types).

Speed is also very important. The total Speed score of your Stand divided by 50 is one more Attack that the Stand or the User may perform each round, with a minimum of one. If Non-Stand Users want to have multiple Attacks per round, they may take the Trained Combatant Feat.

CHOOSING A STAND TYPE

Power Type stands are quite common in the JoJo universe, and they can also be some of the most powerful. They make use of their strong physical ability to demolish opponents, and most opponents stand no chance when coming face to face with one. But their great Power comes with a great weakness. In this case, an extremely short range. Power Type stands have a maximum range of two meters.

Ranged Types stands are extraordinarily versatile, though not as tough or strong as Power Types, Ranged Type Stands can effectively fight in almost any situation.

Remote Type stands are all around capable fighters, and they can deal huge damage, even at enormous ranges. However, they are unable to be fully controlled by their users; Remote Type stands can only operate on one real predetermined action when sent out.

Ability Type stands are highly specialized, though they can harness a wide variety of abilities. These stands have little in the way of physical power or staying power, but expert use of their abilities can allow them to do incredible things.

Enhancement Type Stands wield tremendous power through the enhancement of objects. However, whereas most stands would be immune to physical damage, these stands are able to be damaged by physical objects, as well as other Stands.

Revenge Type stands have ridiculous power and a large range, but these stands are only able to manifest when the User has been directly harmed recently. This means that they are very capable in combat, but not very useful outside of it.

Independent Type stands are very rare. They usually do not have a User, and often wield themselves. They could also be Stands that had a User, but now function independently of them.

Hive Type stands are formed by many small fragments that make up one stand. Each fragment only has a small amount of the power of the stand as a whole. Because of this, Hive stands have the power of a normal stand, split between many locations and power levels. This also gives them a ridiculously long range.

Act Type stands are the rarest of the rare. They are created when someone who does not possess a proper Fighting Spirit is still able to gain a Stand. Because of this, it has to grow and develop with its user. Creating an Act Type will have to be discussed with your DM.

STAND TYPES

- Power
- Ranged
- Remote
- Ability
- Enhancement
- Revenge
- Independent
- Hive
- Act

| d100 result | Stand Type |
|-------------|-------------|
| 1-35 | Power |
| 36-49 | Ranged |
| 50-69 | Enhancement |
| 70-79 | Remote |
| 80-89 | Ability |
| 90-93 | Independent |
| 94-97 | Hive |
| 98-99 | Revenge |
| 100 | Act |

Multi-Type Stands: Some Stands have attributes of several different types of Stand. For these Stand's Stats, take the average of each Stat multiplier for the two respective types and use those multipliers, rounded down, when figuring out your initial Stand Stats. Furthermore, if there are any limitations on a Stand type's Stat increases still apply. For example, if a Stand is both a Power/Enhancement-Type you cannot have a Range Stat above 20, even if the initial average would be higher. If you have a Power/Ability-Type you cannot increase the Stand's Power or Durability above what it would be initially, and the Range stat still cannot get above 20. If you use Hive Type as one of your Stand types, you only get to take 1d4 + Level to increase your Stand's Stats. You also take the lower of the Hit Dice and Attack Dice if you are using two types of stands.

Creating a Stand Ability

Stand Abilities have endless possibilities, able to do anything from cooking supernaturally good food to being able to stop time itself. The rules below should generally apply to most Stand Abilities, but you should work with your DM to create the perfect custom Ability for your Stand.

General Rules: Abilities that heal or deal damage should follow the dice guidelines below, and these dice should increase every other Level (for example, at Level 3 1dx becomes 2dx). Abilities that require a Saving Throw should use the following Stand DC: 8 + Cha + Proficiency Bonus.

- **No Dice:** Should be an ability that buffs/debuffs someone very little, or some sort of utility. Not combat-viable directly, but should be able to be used creatively in combat.
- **d4:** Group effects, healing/damage that affects a group of people. Can have a secondary effect if it is just a single target ability.
- **d6:** An ability that affects multiple targets and requires a Saving Throw, dealing no damage on success, or ranged healing for a single target. Can also be touch healing that gives an additional effect.
- **d8:** Damage that may be added to a Stand's punch or touch on a hit and does not require a Saving Throw. Can also be a ranged Attack that requires a Saving Throw with half damage on success. Can be touch healing that takes a single Attack or Bonus Action to perform.
- **d10:** Damage that may be added to a Stand's punch or touch and requires a Saving Throw, dealing no damage on success. Can be touch healing that takes an Action to perform. Can be a ranged Attack that requires a Saving Throw, dealing no damage on success. Can be a single-target melee Attack that requires a Saving Throw, dealing half damage on success.
- **d12:** Can be a touch healing Ability that takes an Action as well as another type of Action (Reaction, Bonus Action, Movement Action). Can be a single-target melee Attack that requires a Saving Throw, dealing no damage on success.

| Level of Stand User | Amount of Dice |
|---------------------|----------------|
| 1 | 1dx |
| 2 | 1dx |
| 3 | 2dx |
| 4 | 2dx |
| 5 | 3dx |
| 6 | 3dx |
| 7 | 4dx |
| 8 | 4dx |
| 9 | 5dx |
| 10 | 5dx |

| Level of Stand User | Amount of Dice |
|---------------------|----------------|
| 11 | 6dx |
| 12 | 6dx |
| 13 | 7dx |
| 14 | 7dx |
| 15 | 8dx |
| 16 | 8dx |
| 17 | 9dx |
| 18 | 9dx |
| 19 | 10dx |
| 20 | 10dx |

Note: The damage cap for these scaling dice is normally 10dx, but this does not have to be the case. Characters or enemies may be able to go far past Level 20, and therefore, would be able to deal massive amounts of Damage using them. Your DM may decide that Abilities past that may increase in the same fashion as before (an additional dice for every odd Level), or that 10dx should be the limit for balance.

Optional Extra Lethal Rule: If you want an experience closer to JoJo, that has Abilities deal crazy amounts of damage, you may make it so that you roll an amount of Dice equal to your level, rather than the scaling dice shown in the chart above.

Leveling up:

| EXP | Level | Proficiency Bonus |
|--------|-------|-------------------|
| 0 | 1 | +2 |
| 300 | 2 | +2 |
| 900 | 3 | +2 |
| 2,700 | 4 | +2 |
| 6,500 | 5 | +3 |
| 14,000 | 6 | +3 |
| 23,000 | 7 | +3 |
| 34,000 | 8 | +3 |
| 48,000 | 9 | +4 |
| 64,000 | 10 | +4 |

| EXP | Level | Proficiency Bonus |
|---------|-------|-------------------|
| 85,000 | 11 | +4 |
| 100,000 | 12 | +4 |
| 120,000 | 13 | +5 |
| 140,000 | 14 | +5 |
| 165,000 | 15 | +5 |
| 195,000 | 16 | +5 |
| 225,000 | 17 | +6 |
| 265,000 | 18 | +6 |
| 305,000 | 19 | +6 |
| 355,000 | 20 | +6 |

Stand Level Ups past level 15 all continue to get 2d4/3d4 Points to add to their Stand's Scores when leveling up, and the same bonus of adding your level still applies.

TYPES OF STANDS

POWER

Examples of Power Stands: Star Platinum, Crazy Diamond, Gold Experience

Also known As *Close-Range* Stands

Description:

Power-Type Stands are considered to be some of the most dangerous and powerful due to their all around physical ability. They're also the most common. Most opponents have no chance facing off against a Power-Type Stand user when within their range, but they do have a weakness in their extremely short range.

| | |
|--------------|--------|
| Stats | Mod |
| Power | Str x4 |
| Precision | Dex x3 |
| Durability | Con x3 |
| Range | Int x1 |
| Speed | Wis x4 |
| Stand Energy | Cha x2 |

Every Level-Up, You may roll 2d4 + Level (the one you're becoming) and put that number of points into any of your Stand's Stats. Your Stand's Range may not be increased past 20 (2 meters).

Attack Dice: 1d12

Attack Dice Past Level 11: 2d10

Hit Dice: 1d12

Stand DC: 8 + Cha + Proficiency Bonus

| Level | Pro. Bonus | Number of Feats | Class Features | Ability Dice |
|-------|------------|-----------------|--|--------------|
| 1 | +2 | 2 | Feat of Power | 1dx |
| 2 | +2 | 2 | Custom Ability | 1dx |
| 3 | +2 | 2 | Ability Score Improvement | 2dx |
| 4 | +2 | 2 | Gain Armored Stand OR Melee Barrage OR Detached Senses | 2dx |
| 5 | +3 | 2 | Gain Stand Rush | 3dx |
| 6 | +3 | 3 | Choose another Class Feature from the Level 4 options, Ability Score Improvement | 3dx |
| 7 | +3 | 3 | Counterattacking Blow OR Offensive Blow | 4dx |
| 8 | +3 | 3 | Ability Score Improvement | 4dx |
| 9 | +4 | 3 | Gain Block Physical Projectile OR Block Stand Projectile | 5dx |
| 10 | +4 | 3 | Ability Score Improvement | 5dx |

RANGED

Examples of Ranged Stands: Hierophant Green, Aerosmith, Whitesnake

Also Known As *Versatile* Stands

Description:

Ranged-Type Stands are fantastic all around. While not as strong or tough as Power types, Ranged Stands are able to use their versatility and flexibility to their advantage, often being able to effectively fight in almost any situation. A Stand type with no great strengths, but no great weaknesses either.

| | |
|--------------|--------|
| Stats | Mod |
| Power | Str x3 |
| Precision | Dex x3 |
| Durability | Con x3 |
| Range | Int x6 |
| Speed | Wis x3 |
| Stand Energy | Cha x3 |

Every Level-Up, You may roll 2d4 + Level (the one you're becoming) and put that number of points into any of your Stand's Stats except for Power or Durability. Your Power and Durability may not be increased past their initial values.

Attack Dice: 1d8

Attack Dice Past Level 11: 1d10

| 20 | +6 | 6 | Heaven Calls | 10dx |

REMOTE

Examples of Remote Stands: Highway Star, Black Sabbath, Goo Goo Dolls, Manhattan Transfer

Also Known As *Automatic Stands*

Description:

Remote-Type Stands are immensely powerful. Their Abilities and strength can often not be ignored. However, the users of these Stands often cannot control them, with their Stands instead automatically following a simple task. For example, attack the closest human until its breathing stops for 5 seconds, prevent anybody from entering a building, use your ability on anyone who opens a door, attack anyone who steps into a shadow, etc. These Stands, while often powerful indeed, have very easily exploitable weaknesses due to the simple nature of how they function.

Attack Dice: 1d8

Attack Dice Past Level 11: 2d8

Hit Dice: 1d10

Stand DC: 8 + Cha + Proficiency Bonus

| | |
|--------------|---------|
| Stats | Mod |
| Power | Str x 3 |
| Precision | Dex x 2 |
| Durability | Con x 4 |
| Range | Int x 5 |
| Speed | Wis x 3 |
| Stand Energy | Cha x 2 |

Every level up, you may roll 2d4(+ The level you are becoming) and put these points into any stat except Precision.

Important! *These Stands cannot be controlled by their Users. The only power their User has over them is to send them out or recall them. These Stands can only perform one predetermined action. Example: Prevent anybody from entering a building, use your ability on anyone who opens a door, attack anyone who steps into a shadow, etc...*

You can also make this Ability apply to one specific person or object, through the use of Stand Marking.

| Level | Pro. Bonus | Number of Feats | Class Features | Ability Dice |

| 20 | +6 | 6 | Heaven Calls | 10dx |

ABILITY

Examples of Ability Stands: Hermit Purple, Earth Wind & Fire(?), Moody Blues, White Album, Oasis

Also Known As: Also Known As *Phenomenon* Stands

Description:

Every Stand is different. Many Stands are able to physically manifest themselves clearly and powerfully, but most Ability Stands do not function in the same way. Some Ability Stands are not visible or tangible unless specifically made so by their user. While these Stands have very little in the way of physical power, their masterful use of their Abilities are able to keep them more than handy in the fight.

Attack Dice: 1d4

Attack Dice Past Level 11: 1d6

Hit Dice: 1d6

| 20 | +6 | 6 | Heaven Calls | 10dx |

ENHANCEMENT

Examples of Enhancement Stands: High Priestess, Strength, Wheel of Fortune, The Fool, Love Deluxe

Also Known As: *Bound* Stands

Description: Many Stands are able to physically manifest themselves or their abilities in a vacuum. However, there are some Stands that are able to forgo many of the normal Stand rules and make a normal, everyday object into something much more terrifying. While these Stands have incredible power, they also possess properties and limitations unique to them, and them alone.

Attack Dice: 1d10

Attack Dice Past Level 11: 2d8

Hit Dice: 1d10

Stand DC: 8 + Cha + Proficiency Bonus

| | |

REVENGE

Examples of Revenge Stands: Ebony Devil, Stray Cat, Notorious B.I.G., Civil War)

Also Known As: *Grudge* Stands

Description: Some Stands have immense power but are unable to properly function unless their user feels a certain way. Through feelings of hatred, pain, or loss, certain Stands may manifest properly, showing their true form and relentlessly attacking those who wronged their users.

Attack Dice: 1d12

Attack Dice Past Level 11: 2d10

Hit Dice: 1d12

Stand DC: 8 + Cha + Proficiency Bonus

| | |
|--------------|--------|
| Stats | Mod |
| Power | Str x3 |
| Precision | Dex x4 |
| Durability | Con x4 |
| Range | Int x7 |
| Speed | Wis x3 |
| Stand Energy | Cha x2 |

Every Level-Up, You may roll 3d4 + Level (the one you're becoming) and put that number of points into any of your Stand's Stats.

Important! You cannot activate a Revenge-Type Stand by yourself. Instead, you must gain enough Grudge points to be able to activate your Stand. An explanation of the Grudge system can be found below.

| Level | Pro. Bonus | Number of Feats | Class Features | Ability Dice |
|-------|------------|-----------------|--|--------------|
| 1 | +2 | 2 | Detached Senses, Feat of Power | 1dx |
| 2 | +2 | 2 | Custom Ability, Stand Marking | 1dx |

| 20 | +6 | 6 | Heaven Calls | 10dx |

INDEPENDENT

Examples of Independent Stands: Anubis, Superfly, Foo Fighters

Also Known As: *Stand-Alone* Stands

Description: Independent-Type Stands are quite interesting, and are one of the more rare Stand Types in JoJo's Bizarre Adventure. These Stands are odd because they do not actually have a User, instead in control of themselves. They have the same sort of Attributes that regular Stands do and must follow most of the same rules. However, the Stand is still made up of physical matter, and thus is similar to an Enhancement type Stand in that they can be damaged physically by Non-Stand damage types.

(Note: Independent Type Stands have no actual Stand to summon, as they themselves are the Stand, or their Stand Functions Independently of their Control. However, this also means that damaging them is the only way to cause harm, and they never have to summon their Stand.)

Attack Dice: 1d8

Attack Dice Past Level 11: 2d6

Hit Dice: 1d10

Stand DC: 8 + Cha + Proficiency Bonus

| | |
|--------------|--------|
| Stats | Mod |
| Power | Str x3 |
| Precision | Dex x3 |
| Durability | Con x4 |
| Range | Int x0 |
| Speed | Wis x3 |
| Stand Energy | Cha x3 |

Every Level-Up, You may roll 2d4 + Level (the one you're becoming) and put that number of points into any of your Stand's Stats except Range. Your Stand's Range may not be increased past 0.

Important!: Some Independent Stands did in fact have a user at some point, or might even still have a user. They are not linked together though, as damaging the Stand does no harm to the User and vice versa. However, if a person does or did have an Independent-Type Stand they are still able to sense Stands and Ghosts, just like a normal Stand User would.

| Level | Pro. Bonus | Number of Feats | Class Features | Ability Dice |
|-------|------------|-----------------|--|--------------|
| 1 | +2 | 2 | Immense Resistance, Anchored Stand | 1dx |
| 2 | +2 | 2 | Gain Custom Ability | 1dx |
| 3 | +2 | 2 | Ability Score Improvement | 2dx |

| 5 | +3 | 2 | Melee Barrage OR Armored Stand | 3dx |
| 6 | +3 | 3 | Ability Score Improvement | 3dx |
| 7 | +3 | 3 | Choose another Class Feature from the Level 4 or Level 5 options | 4dx |
| 8 | +3 | 3 | Ability Score Improvement | 4dx |
| 9 | +4 | 3 | Gain Oblivious Facade | 5dx |
| 10 | +4 | 3 | Ability Score Improvement | 5dx |
| 11 | +4 | 4 | Attack Dice increases to 2d6 | 6dx |
| 12 | +4 | 4 | Defensive Ability OR Mobile Ability | 6dx |
| 13 | +5 | 4 | Ability Score Improvement | 7dx |
| 14 | +5 | 4 | Stand Rush | 7dx |
| 15 | +5 | 4 | The Requiem Quietly Plays, Special Ability (2 SE) | 8dx |
| 16 | +5 | 5 | - | 8dx |
| 17 | +6 | 5 | - | 9dx |
| 18 | +6 | 5 | - | 9dx |
| 19 | +6 | 5 | - | 10dx |
| 20 | +6 | 6 | Heaven Calls | 10dx |

HIVE

Examples of Hive Stands: Bad Company, Harvest, Sex Pistols

Also Known As: *Colony* Stands

Description: It is said that Stands reflect their users. Hive-Type Stand Users are those that idolize the idea of individuals working as a team. Their Stands are formed of many much smaller Sub-Stands, each one with only a fragment of the power of a full Stand. These smaller parts may act in tandem or each one separately. Because of this, Hive Stands have around the same strength as a normal Stand, but they all have great range.

Attack Dice: 1d6/1d10

Attack Dice Past Level 11: 2d6/2d10

Hit Dice: 1d8 + Con Modifier

Stand DC: 8 + Cha + Proficiency Bonus

Swarm Attacks: Choose one of the three following saving throws: Strength, Dexterity, or Constitution. When you make a Melee Attack using your Stand, rather than making an Attack Roll, your target must make a Saving Throw of the type you chose. Your Stand must be within Melee Range of the target in order to make a Swarm Attack. When you make a Swarm Attack, you may choose between the following options:

Precise Swarm: 1d6 + Power Modifier damage (this damage increases to 2d6 at Level 11). Your opponent takes full damage if they fail the Saving Throw, or half if they succeed.

Violent Swarm: 1d10 + Power Modifier damage (this damage increases to 2d10 at Level 11). Your opponent takes full damage if they fail the Saving Throw, or none if they succeed.

This Attack's damage can be a type that you and your DM agree fits for your stand. When you attack using less than half of the total instances of your stand, your target has Advantage on the Saving Throw.

| Stats | Mod |
|--------------|----------|
| Power | Str x3/N |
| Precision | Dex x2/N |
| Durability | Con x3 |
| Range | Int x10 |
| Speed | Wis x3/N |
| Stand Energy | Cha x2 |

Every Level-Up, You may roll 2d4 + Level (the one you're becoming) and put that number of points into any of your Stand's Stats.

Important! *Keep an eye on your health. The amount of Instances available for you to use is determined by the percentage of health you are at. If you are at 50% Health, you only have 50% of your Hive Stand available for use. When you are at 0 Hit Points, you may still have a maximum of 1 Stand Instance that functions, but it is recalled, and cannot act in any way. Your amount of Stand Instances only drops to 0 when you die.*

N = The Number of Instances

| Level | Pro. Bonus | Number of Feats | Class Features | Ability Dice |
|-------|------------|-----------------|---|--------------|
| 1 | +2 | 2 | Split Stand, Immense Resistance OR Detached Senses | 1dx |
| 2 | +2 | 2 | Custom Ability | 1dx |
| 3 | +2 | 2 | Ability Score Improvement | 2dx |
| 4 | +2 | 2 | Stand Marking OR Hot Pursuit | 2dx |
| 5 | +3 | 2 | Powerful Flex OR Menacing Aura | 3dx |
| 6 | +3 | 3 | Ability Score Improvement | 3dx |
| 7 | +3 | 3 | Oblivious Facade OR Clever Disguise (feat) | 4dx |

| 9 | +4 | 3 | Defensive Wave OR Mobile Wave | 5dx |
| 10 | +4 | 3 | Ability Score Improvement | 5dx |
| 11 | +4 | 4 | Swarm Attack Dice increases to 2dx | 6dx |
| 12 | +4 | 4 | Choose another Class Feature from the Level 1, Level 4, Level 7, or Level 9 options | 6dx |
| 13 | +5 | 4 | Ability Score Improvement | 7dx |
| 14 | +5 | 4 | Stand Pickpocketing OR Silent Movement | 7dx |
| 15 | +5 | 4 | The Requiem Quietly Plays, Special Ability (2 SE) | 8dx |
| 16 | +5 | 5 | - | 8dx |
| 17 | +6 | 5 | - | 9dx |
| 18 | +6 | 5 | - | 9dx |
| 19 | +6 | 5 | - | 10dx |
| 20 | +6 | 6 | Heaven Calls | 10dx |

ACT

Examples of Act Stands: Echoes, Tusk

Also Known As: *Evolution* Stands

Description: It is said that Stands are a physical manifestation of one's fighting spirit. However, there are some that are exposed to a Stand-Granting item that do not possess a proper fighting spirit, but develop a Stand regardless due to some (often benevolent) outside force. These Stand Users will grow and develop alongside their Stand. Despite starting out extremely weak, they eventually become some of the strongest, scariest, and most versatile Stand Users. They are forced to evolve their Stand once they have developed as a person, experienced combat several times, and when they are in a situation that puts them in despair.

Note: You may switch between your Acts as a Bonus Action once you have obtained them, all except for the Act 0 Stand. In order to evolve your Stand, you must have either; Ready to Hatch, Ready to Walk, or Ready To Fly, and you must be trapped in an event that your DM considers to be "hopeless." Only then will your Stand evolve.

Note: Unless stated otherwise, Class Features can only be used by the Act that gained them.

Hit Dice: 1d8 + Con Modifier

Stand DC: 8 + Cha + Proficiency Bonus

Every Level-Up, You may roll 2d4 + Level (the one you're becoming) and put that number of points into any of your Stand's Stats except those mentioned in each Act. You put all of the points into each Act, so if for example you roll to get 15 points, each Act of your Stand get 15 points to increase Stats with. Stand Energy is an exception for this, as it must be the same for each Act. When you gain a new Act, you may roll the dice to retroactively increase the Stats of the new Stand.

ACT 0

| | |
|--------------|---------|
| Stats | Mod |
| Power | 0 |
| Precision | 0 |
| Durability | Con x 1 |
| Range | Int x 1 |
| Speed | 0 |
| Stand Energy | 0 |

Note: Act 0 Stands do not have an Ability, nor any capacity to move, attack, dodge, or evade. If they can even be summoned, they simply manifest as a large egg.

Attack Dice: 0

HAMON/RIPPLE

The Ripple is an energy that travels through the blood and is powered by breathing. A sacred art, it can be used for both healing and destruction. It is extremely effective against Undead, and it can be used against corporeal objects to manipulate them. The Ripple works similarly to electricity, in that it is able to travel through liquids, metals, and most biomass incredibly well.

Function: The Ripple can be picked up at any level, and functions the same way that a Stand Type does. However, The Ripple is not a Stand. As such, One may have both Levels in Ripple and a different Stand Type at the same time.

Hit Dice: 1d10 + Con Modifier

Honed Body: Ripple Users' bodies are much better honed than the bodies of most humans. Normally, Humans are limited to having a maximum of 20 of any Ability Score. However, if you have any Levels in Ripple, your maximum Strength, Dexterity, and Constitution may be 24.

(Note: You may not use any abilities involving The Ripple, nor regain Ripple Points, when unable to breathe.)

Ripple Conductors: Ripple energy conducts similarly to electricity, easiest through materials such as liquid, metal, and biomass, typically traveling through something in order to reach the ground. However, if the Ripple is put into an object with immense force, or if it is sustained, the energy will spread through it very easily. A Ripple Punch's full effect will be felt up to 2m away from the point of impact, or 1m for a non-conductor.

Ripple Points: A Ripple User has an amount of Ripple Points equal to their Level. If they can comfortably breathe, they regain 1 Ripple Point at the start of each turn.

Calculating Ripple DC: Ripple users have a DC of 8 + Constitution Modifier + Proficiency Bonus.

Cost: When experience points are gained, experience points can go into either Ripple, or into the Stand ability. This means that a Stand User can have a different amount of Experience which corresponds to each class.

Undead's Bane: Against Undead creatures such as Zombies, Ghouls, Vampires, or Enhanced Pillar Men, attacks involving Ripple deal double damage. A successful hit upon the head of one of these creatures also deals double damage. Ripple-infused attacks against Pillar Men deal an extra 1d4 damage.

Leveling Up

| Level | Pro. Bonus | Number of Feats | Class Features | Number of Ripple Points | Unarmed Attack Damage |
|-------|------------|-----------------|---|-------------------------|-----------------------|
| 1 | +2 | 2 | Unarmed Strikes now deal Radiant Damage, Gain Healing Hands | 1 | 1d6 |
| 2 | +2 | 2 | Gain Healing Ripple, Rippling Weapon. Increase your Strength, Dexterity, or Constitution Score by 1. | 2 | 1d6 |
| 3 | +2 | 2 | Gain Ionic Rippling + Headhunter (feat), Ability Score Improvement. | 3 | 1d6 |
| 4 | +2 | 2 | Gain Zoom Punch, Ripple Pressure or Sunlight Yellow Overdrive. Increase your Strength, Dexterity, or Constitution Score by 1. | 4 | 1d6 |
| 5 | +3 | 2 | Gain a Class Feature from level 4 | 5 | 1d8 |
| 6 | +3 | 3 | Gain Ripple Regeneration, Ability Score Improvement. Increase your Strength, Dexterity, or Constitution Score by 1. | 6 | 1d8 |
| 7 | +3 | 3 | Gain Sendo Overdrive or Scarlet Overdrive | 7 | 1d8 |
| 8 | +3 | 3 | Gain a Class Feature from level 4 or 7. Ability Score Improvement. Increase your Strength, Dexterity, or Constitution Score by 1. | 8 | 1d8 |
| 9 | +4 | 3 | Gain Toxin Expulsion | 9 | 1d8 |
| 10 | +4 | 3 | Gain Ripple Shield or Ripple Cutter, Ability Score Improvement. Increase your Strength, Dexterity, or Constitution Score by 1. | 10 | 1d10 |
| 11 | +4 | 4 | Gain Liquid Solidification | 11 | 1d10 |
| 12 | +4 | 4 | Gain Thunder Cross Split Attack, Life Magnet, or Extreme Healing Ripple. Increase your Strength, Dexterity, or Constitution Score by 1. | 12 | 1d10 |
| 13 | +5 | 4 | Gain a Custom Ripple Technique, Ability Score Improvement. | 13 | 1d10 |
| 14 | +5 | 4 | Gain a Class Feature from levels 4, 10, or 12. Increase your Strength, Dexterity, or Constitution Score by 1. | 14 | 1d10 |
| 15 | +5 | 4 | Gain Deep Pass Overdrive | 15 | 1d12 |
| 16 | +5 | 5 | Increase your Strength, Dexterity, or Constitution Score by 1. | 16 | 1d12 |
| 17 | +6 | 5 | Increase your Strength, Dexterity, or Constitution Score by 1. | 17 | 1d12 |
| 18 | +6 | 5 | Increase your Strength, Dexterity, or Constitution Score by 1. | 18 | 1d12 |
| 19 | +6 | 5 | Increase your Strength, Dexterity, or Constitution Score by 1. | 19 | 1d12 |
| 20 | +6 | 6 | Increase your Strength, Dexterity, or Constitution Score by 1. | 20 | 1d12 |

THE SPIN

Some objects, when rotated in comparison to the 9:16 ratio, may produce more energy than it takes to keep the object spinning. Some people have figured out how to properly harness this energy, using the vibrations produced for a variety of tasks. In theory, perfection of this ability could result in the power of Infinity.

Function: *The Spin can be picked up at any level, and functions the same way that a Stand Type does. However, The Spin is not a Stand. As such, One may have both The Spin and a different Stand Type at the same time.*

The Golden Ratio: A Spin User must have a reference of a 9:16 ratio in order to use the Spin. A 9:16 ratio is found somewhere in almost every uninjured creature, except humans. The ratio may also be found in something artificial, such as a piece of paper or a tattoo, so long as it is made to be a 9:16 ratio.

Hit Dice: 1d8

Calculating Spin DC: Spin users have a DC of 8 + Proficiency Bonus + Dexterity Modifier.

(Note: Objects that are not perfectly spherical may be Spun and thrown, but your Attack and Damage rolls, as well as Range are all cut in half. To find the range and attack dice for these objects, just use the material closest to one of the four materials in the table below.)

Leveling Up

| Level | Pro. Bonus | Number of Feats | Class Features |
|-------|------------|-----------------|--|
| 1 | +2 | 2 | Gain Spherical Spin |
| 2 | +2 | 2 | Gain Sculpt Sphere |
| 3 | +2 | 2 | Gain Return to Sender, Ability Score improvement |
| 4 | +2 | 2 | Gain Harden Flesh |
| 5 | +3 | 2 | Gain either Muscle Contraction or Sento Spin |
| 6 | +3 | 3 | Gain Wrist Memory, Ability Score improvement |
| 7 | +3 | 3 | Add another attack die for any Sphere Attacks (ex. 1d6 becomes 2d6). This includes Improvised Sphere. |
| 8 | +3 | 3 | Ability Score Improvement, Gain either Restraining Spin or Twisting Spin |
| 9 | +4 | 3 | Gain a Class Feature from levels 5 or 8, Gain Supernatural Force |
| 10 | +4 | 3 | Ability Score Improvement, Gain either Tendon Twister or Medicinal Spin |
| 11 | +4 | 4 | Gain Defensive Spin, or Satellite Spin |
| 12 | +4 | 4 | - |
| 13 | +5 | 4 | Ability Score improvement |
| 14 | +5 | 4 | Add another attack die for any Sphere Attacks (ex. 1d6 becomes 2d6). This includes Improvised Sphere. Gain a Class Feature from levels 5, 8, or 11 |
| 15 | +5 | 4 | Gain Special Technique |
| 16 | +5 | 5 | - |
| 17 | +6 | 5 | Ability Score Improvement |
| 18 | +6 | 5 | - |
| 19 | +6 | 5 | - |
| 20 | +6 | 6 | Gain Perfect Spiral |

Spheres

| Material | Range | Damage | Effect |
|-------------------|---------------|---------------------|--|
| Wood | 10/30 Meters | 1d4 + Dex Force | The Wooden Sphere will splinter and shatter upon contact, causing splinters to fly off in all directions up to 2 meters from the point of the Sphere's impact. Those within 2 meters must make a Dex Save against your Spin DC, taking an additional 1d8 points of Piercing damage on failure. This Damage increases to 2d8 starting at Level 7, and 3d8 at Level 14. |
| Rubber | 40/240 Meters | 1d6 + Dex Force | None |
| Rock/Stone | 20/60 Meters | 1d8 + Dex Force | None |
| Metal | 10/30 Meters | 1d12 + Dex Force | None |
| Improvised Sphere | N/A | None | Prerequisite: Defensive Spin This is a Sphere that may be used to block an attack as a Reaction. You must either have the Sphere prepared beforehand or have something that can be spun like a Sphere nearby. Different materials absorb different amounts of damage. The Sphere is destroyed after the attack's damage is reduced. Water reduces 1d4, ice and wood reduce 1d6, stone reduces 1d8, and metal reduces 1d10. Your Dexterity Modifier is also added to the damage reduction. |
| Satellite Sphere | 15 Meters | None | Prerequisite: Satellite Spin This is a Sphere that must be custom made, with several separate marble-sized balls embedded on the outside of the Sphere. When the Sphere is thrown all creatures within 3m of the target must make a Dex Save against your Spin DC, rolling a d6 on failure and losing the corresponding sense for 1d6 turns. 1 = Taste, 2 = Smell, 3 = Touch, 4 = Hearing, 5 = Sight, and if they roll a 6, they simply take 1d12 Bludgeoning Damage (It deals 2d12 starting at level 7, and 3d12 starting at level 14). The Satellite Sphere thrown is destroyed, and cannot be used again. |

NON-SUPERNATURAL CLASSES

Despite all of the odd happenings and abilities in the world of JoJo's Bizarre Adventure, most people don't even know about them. However, the world always needs those who fight for what they believe in. As such, these Classes also exist.

Gaining a Stand: If a person in a Non-Supernatural Class gains a Stand, they may erase all of their Abilities, Feats, and Proficiencies, and then convert them into the respective Stand Type that they obtain. For example, if a Level 5 Brawler gains a Power Stand, they may opt to simply become a Level 5 Power Type Stand User instead of multiclassing. When you become a Stand User your Max HP reverts to what it was originally, then you re-roll for every Level suddenly gained. You may only convert Non-Supernatural Levels into Stand Levels, you may not convert them back.

BRAWLER

Brawlers tend to face their opponents head on using their fists, as well as their surroundings, in order to come out on top in fights.

Hit Dice: 1d8

| Level | Pro. Bonus | Number of Feats | Class Features |
|-------|------------|-----------------|---|
| 1 | +2 | 2 | Gain Tavern Brawler (feat) or Martial Arts (feat) |
| 2 | +2 | 2 | - |
| 3 | +2 | 2 | Gain Trained Combatant (feat), Ability Score Improvement |
| 4 | +2 | 2 | - |
| 5 | +3 | 2 | - |
| 6 | +3 | 3 | Gain Melee Specialization (feat), Ability Score Improvement |
| 7 | +3 | 3 | - |
| 8 | +3 | 3 | Ability Score Improvement |
| 9 | +4 | 3 | Ability Score Improvement |
| 10 | +4 | 3 | Ability Score Improvement |
| 11 | +4 | 4 | - |
| 12 | +4 | 4 | Gain Cleave (feat), or Adrenaline Rush (feat) |
| 13 | +5 | 4 | Ability Score Improvement |
| 14 | +5 | 4 | - |
| 15 | +5 | 4 | Gain Trained Combatant (feat) |
| 16 | +5 | 5 | - |
| 17 | +6 | 5 | - |
| 18 | +6 | 5 | Ability Score Improvement |
| 19 | +6 | 5 | - |
| 20 | +6 | 6 | Gain Unstoppable Willpower (feat) |

Knight

Knights are those who train to use heavy weapons and traverse long distances tirelessly.

Hit Dice: 1d8

| Level | Pro. Bonus | Number of Feats | Class Features |
|-------|------------|-----------------|---|
| 1 | +2 | 2 | Gain Simple Weapon Focus (feat), OR Professional Weapon Training (feat) |
| 2 | +2 | 2 | - |
| 3 | +2 | 2 | Gain Cleave (feat), OR Scarflesh (feat), Ability Score Improvement |
| 4 | +2 | 2 | - |
| 5 | +3 | 2 | - |
| 6 | +3 | 3 | Gain Heavy Specialization (feat), Ability Score Improvement |
| 7 | +3 | 3 | - |
| 8 | +3 | 3 | Ability Score Improvement |
| 9 | +4 | 3 | Ability Score Improvement |
| 10 | +4 | 3 | Ability Score Improvement |
| 11 | +4 | 4 | - |
| 12 | +4 | 4 | Ability Score Improvement |
| 13 | +5 | 4 | Ability Score Improvement |
| 14 | +5 | 4 | - |
| 15 | +5 | 4 | Gain Trained Combatant (feat) |
| 16 | +5 | 5 | - |
| 17 | +6 | 5 | - |
| 18 | +6 | 5 | Ability Score Improvement |
| 19 | +6 | 5 | - |
| 20 | +6 | 6 | Gain Tanky (feat) |

Soldier

Soldiers are modern-day warriors, often trained in the use of firearms as well as close combat. They are a more modern-day version of the Knight.

Hit Dice: 1d6

| Level | Pro. Bonus | Number of Feats | Class Features |
|-------|------------|-----------------|---|
| 1 | +2 | 2 | Gain Rifle Specialization (feat), OR Sidearm Specialization (feat), Professional Weapon Training (feat) |
| 2 | +2 | 2 | - |
| 3 | +2 | 2 | Gain Tavern Brawler (feat), OR Shotgun Specialization (feat), Ability Score Improvement |
| 4 | +2 | 2 | - |
| 5 | +3 | 2 | - |
| 6 | +3 | 3 | Gain Heavy Specialization (feat), OR Rifle Specialization (feat), Ability Score Improvement |
| 7 | +3 | 3 | - |
| 8 | +3 | 3 | Ability Score Improvement |
| 9 | +4 | 3 | Ability Score Improvement |
| 10 | +4 | 3 | Ability Score Improvement |
| 11 | +4 | 4 | - |
| 12 | +4 | 4 | Gain either Headhunter (feat), Demolitionist (feat) |
| 13 | +5 | 4 | Ability Score Improvement |
| 14 | +5 | 4 | - |
| 15 | +5 | 4 | Gain a Class Feature from levels 1, 6, or 12 |
| 16 | +5 | 5 | - |
| 17 | +6 | 5 | - |
| 18 | +6 | 5 | Ability Score Improvement |
| 19 | +6 | 5 | - |
| 20 | +6 | 6 | Gain Trap Detection (feat) |

Sniper

Snipers prefer to take out their enemies from a good distance away, attacking from behind cover rather than facing their enemies directly.

Hit Dice: 1d4 + Con Modifier

| Level | Pro. Bonus | Number of Feats | Class Features |
|-------|------------|-----------------|---|
| 1 | +2 | 2 | Gain Rifle Specialization (feat) |
| 2 | +2 | 2 | - |
| 3 | +2 | 2 | Gain Sidearm Specialization (feat), Ability Score Improvement |
| 4 | +2 | 2 | - |
| 5 | +3 | 2 | - |

| 16 | +5 | 5 | - |
| 17 | +6 | 5 | - |
| 18 | +6 | 5 | Ability Score Improvement |
| 19 | +6 | 5 | - |
| 20 | +6 | 6 | Gain Deadly Accuracy (feat) |

ABILITIES

Anchored Stand

Your Stand is physically attached and anchored to a physical object. As such, your Stand may be damaged by physical means, as well as Stands. However, regardless of if your Stand takes physical or Stand damage, you still apply the same Damage Reduction to it.

Also, both you and your Stand gain Vulnerability (double damage) to one damage type of your choice, as well as the Stand counterpart to that damage type.

If you are an Enhancement-Type Stand User, you must find an amount of material (or a specific object) that fits your specific anchor. This material must be within your Stand's Range in order for you to use it to Activate your Stand.

Given To: Enhancement-Type Stands, Independent-Type Stands

Ancient Charm

The power coming from you is mysterious, and that of ridiculous strength. All living creatures recognize this power subconsciously.

Your Charisma score increases by 3, and you gain Proficiency in Intimidation (If you were already Proficient in Intimidation, you may gain Expertise and add the Proficiency Bonus again).

Given To: Enhanced Pillar Men

Armored Stand

The amount of damage that your Stand can reduce per round is doubled.

This ability replaces Immense Resistance, if you have it.

Given To: Power-Type Stands, Ranged-Type Stands, Enhancement-Type Stands, Revenge-Type Stands, Independent-Type Stands

Block Physical Projectile

When a physical projectile (bullet, arrow, thrown object, etc.) lands a Direct Hit, you may roll 1d6 as a Reaction and add your Stand's Precision Modifier. If the result is higher than the damage that the projectile would deal, you may instead catch or block the projectile and take no damage.

Given To: Power-Type Stands, Act-Type Stands

Block Stand Projectile

When a Stand-based projectile or group of projectiles such as a Ranged Attack (Hierophant Green's Emerald Splash, Foo Fighters' bullets, Tusk's Nails) lands a Stand Hit or Direct Hit, you may roll 1d6 as a Reaction and add your Stand's Precision Modifier. If the result is higher than the damage that the projectile would deal you may instead catch or block the projectile and take no damage.

Given To: Power-Type Stands, Act-Type Stands

Body Evacuation

The only part of the Undead body needed for Vampiric survival is the brain. If you find yourself in an incredibly desperate situation, you may perform this Ability to save yourself.

As an Attack, you use your Secondary Muscular System (from Controlled Veins) to remove your Head and Secondary Muscular System from the rest of you.

Your Head and Secondary Muscular System are now all you are. You may slowly regenerate your own body, but it takes 3d4 days to do so, as well as 50 Energy for each Kilogram of flesh regenerated.

You still have to Feed at the standard rate, but you may now do this with your Secondary Muscular System as opposed to your standard Feed Action. The Action is the same, it is simply no longer carried out using your hand.

Given To: Vampires, Enhanced Pillar Men

Camouflage

As an Action you may perfectly disguise your Stand, making it difficult for others to tell where or what your Stand is (for example, High Priestess disguising as a metal object, or Wheel of Fortune shifting to look like a normal car).

This disguise allows your Stand to perform surprise attacks if opponents do not take note. Anyone attempting to determine what your Stand is disguised as has Disadvantage on the roll, as long as your Stand does not move.

Given To: Enhancement-Type Stands

Cellular Drive

Even when below 0 HP, in order for you to stop moving your Hit Points must drop below the inverse of your Maximum Health, in which case your Head/Body are destroyed.

Given To: Enhanced Pillar Men

Cellular Phasing

Your cells all can move with incredible flexibility and speed. You may move your body, or parts of your body, through flesh without absorbing or affecting it in any negative way, if desired.

Given To: Enhanced Pillar Men

Complete Control

Your Stand is a fusion of Stand Energy and a physical object. You've gained enough control over your Stand that you can completely influence how the object or material your Stand is fused with functions. Examples of this include Wheel Of Fortune's squeezing and Strength's control of the Ship itself.

Given To: Enhancement-Type Stands

Controlled Veins

You may put an entire miniature muscular system within the veins in your body. Not only that, but you may also turn energy or matter within your body into more veins, in order to have a Secondary Muscular System.

Your Veins may be used to pierce through your skin without damaging you. Your Veins may deal Slashing, Bludgeoning, or Piercing damage, and they count as Unarmed Strikes when you attack using them. You may Attack using a Vein even if the health of the rest of your Body is zero or lower. If the health of your Head is zero or lower, you may not do this.

You may have up to 5 Veins going outside of your body at a time. Your hair also operates in the same way, with a maximum of 5 "Veins" on the top of your head. When using Veins to move, you may move at up to half of your normal movement speed. You may also use Veins to Grapple. For every additional Vein used, add +1 to the Bonus for your Grapple Check. The Veins may stretch up to 5 meters.

Given To: Vampires, Enhanced Pillar Men

Counterattacking Blow

As an Action you may set up a Counterattacking Blow. When somebody enters your Stand's Range (if your Stand is within its movement speed), or at any time when your Target is within your Melee Range, you may make an Attack with Advantage as a Reaction. If the attack hits you may roll twice as many Damage Dice.

Given To: Power-Type Stands

Custom Ability

This is something that must be discussed with the DM of your Campaign. Further details can be found on the Stands page.

Stand Abilities are something integral to the existence of Stands, and it's a huge part of what makes JoJo's Bizarre Adventure such a fun, varied, and unique experience.

A general rule of thumb is that the more specific your Stand Ability is, the more powerful it is. However, the more general it is, the more versatile it can be.

Examples of Abilities are Anubis's Possession, Hermit Purple's Spirit Photos, or White Album's ability to freeze.

A Custom Ability might also be a passive ability that may be activated or deactivated at will. Passive Abilities consume 1 Stand Energy at the Start of the Stand User's Turn and also consume their Bonus Action to perform. If you are unable to use your Bonus Action, or you do not have enough Stand Energy remaining, the ability simply stops functioning.

Given To: All Stands

Custom Ripple Technique

Through countless hours spent training in the ancient art of The Ripple, you've created a fighting style or ability that is unique to you, and you alone.

Examples of this are Tompetty's Future Sight, Dire's Thunder Cross Split Attack, and Caesar's Bubble Launcher.

Talk to your DM to determine the function and details of this Technique.

Given To: Ripple Users

Deep Pass Overdrive

As an Action, you may spend 15 Ripple Points and touch a creature nearby. After performing this action, your Ripple Level drops to 0, you lose 1d10 Maximum Health every turn from now on, and your Strength, Dexterity, and Constitution Scores all drop to 3.

Your target, however, gets a permanent boost of +2 in their Strength, Dexterity, and Constitution scores, as well as another +3 in either Strength, Constitution, or Dexterity. They also gain 3 points of Inspiration, as well as all of the Inspiration that you had, and they get Advantage on all rolls involving a d20 for the next 10 minutes.

Given To: Ripple Users

Defensive Ability

Through clever use of your Stand's Ability you've found a way to properly defend yourself. As an Action, you may spend 2 Stand Energy and gain one of the following benefits for 3 turns (not including the one that you activate it on). You may only have one of the following buffs active at a time.

- +2d4 AC (Both for Stand and User)
- Advantage on all Saving Throws
- An amount of Temporary Hit Points equal to twice your Level

Given To: Ability-Type Stands, Independent-Type Stands

Defensive Spin

You may use a Sphere, or something nearby that can be spun like a Sphere, to block an attack as a Reaction. Different materials absorb different amounts of damage, and the sphere is destroyed after the attack's damage is reduced.

Water reduces 1d4 damage, ice and wood reduce 1d6, stone reduces 1d8, and metal reduces 1d10. Your Dexterity Modifier is also added to the damage reduction.

Given To: Spin Users

Defensive Wave

As an Action, you may give yourself a buff that remains active until the start of your next turn. Your Stand is a bunch of little instances that can hold themselves together in order to form a shield in order to protect their User.

When this Shield is active, any Stand Hits count as a Miss. You or your Stand may not use your Movement Actions until your next turn. If you had already moved this turn, you may not activate this Action.

Given To: Hive-Type Stands

Design Change

Your Stand undergoes an immediate and noticeable visual change, still maintaining elements of your original Stand, but changing up and adding some things as well.

Given To: Requiem Stand

Detached Senses

You are able to experience and process sensory information using your Stand. Your Stand may see, hear, taste, touch, and smell the same way that you do. Furthermore, you may sense through your body and your Stand at the same time.

For Hive-Type Stand Users, you may sense through an amount of Instances equal to your Intelligence Score.

Given To: Power-Type Stands, Ranged-Type Stands, Remote-Type Stands, Ability-Type Stands, Enhancement-Type Stands, Revenge-Type Stands, Hive-Type Stands, Act-Type Stands

Detached Stand

Your Stand no longer shares a health pool with you. If your Stand is destroyed or knocked unconscious it will not affect you in any way.

It takes 1d4 hours for it to fully regenerate and be able to manifest again. However, if you are killed or knocked unconscious your Stand will cease to exist.

Given To: Remote-Type Stands

EPM Brain Stimulation

The Stone Mask is made to be used by Pillar Men. It not only awakens the true potential of the mind, but also increases the efficiency of it. At Levels 4, 7, 10, 14, 17, and 20, add 1 point of Intelligence to your Intelligence Score.

Given To: Enhanced Pillar Men

EPM Dormancy

As an Action, you may seal yourself within a thin shell of rock at any point. While in this state you may not move in any way, but you also have total Immunity to UV light. At this point, you may either set an automatic timer or trigger (a bird lands on your casing, you hear a gunshot, etc.) that allows you to awaken as an Action.

Entering this state costs 100 Energy, and you may stay in it for up to ten thousand years. You may remain dormant for longer than that, but for every year that you are dormant past ten thousand, 5 Energy is consumed. If you run out of energy while in this state, your brain stops functioning completely.

Given To: Enhanced Pillar Men

EPM Double Health

As an Enhanced Pillar Man you get the same amount of Hit Points that you did when you were alive. However, your Hit Dice, regardless of your class, becomes 1d12. Your Head Hit Dice is 1d6, and it has an additional +5 to its AC.

Given To: Enhanced Pillar Men

EPM Durability

Your body is becoming used to absorbing these massive amounts of energy, allowing you to convert some into tissue to make it much denser over time. At Levels 8, 11, 13, 15, and 20, add 1 point of Constitution to your Constitution score.

Given To: Enhanced Pillar Men

EPM Enhanced Musculature

Your muscles ripple with stolen life energy. At Levels 5, 8, 11, 15, 18 and 20, add 1 point of Strength to your Strength score.

Given To: Enhanced Pillar Men

EPM Flexibility

Your reflexes are just as strong as your muscles. At Levels 6, 9, 12, 19, and 20, add 1 point of Dexterity to your Dexterity score.

Given To: Enhanced Pillar Men

EPM Muscular Proficiency

Gain advantage on Strength, Constitution, and Dexterity Saving Throws.

Given To: Enhanced Pillar Men

EPM Peak

You have perfectly honed your Abilities, and your brain has been brought to its fullest potential, meaning that the only way to improve from here would be an option other than simply absorbing living things. If you obtain a Completed Stone Mask, you may don it, put UV light into the Mask, and become an Ultimate Being.

Given To: Enhanced Pillar Men

EPM Regeneration

You gain an amount of Hit Points back in either your Head or Body equal to your Constitution Modifier, every time Initiative is rolled (each round).

Furthermore, as an Action, you may restore Hit Dice to yourself. You may only restore an amount of Hit Dice equal to your Proficiency Bonus per Action. Hit Points restored by this feature can either restore Hit Points to your Head or Body, but you may split Hit Points restored between the two if desired.

Given To: Enhanced Pillar Men

EPM Senses

You've had lots of experience, and can tell when something feels off. At Levels 7, 10, 13, 16, 19, and 20, add 1 point of Dexterity to your Dexterity score.

Given To: Enhanced Pillar Men

Elemental Battle Mode

You realize that your body may be used in a creative way in order to harness a primal force of Earth, such as heat, cold, light, rock, water, air, electricity, etc.

You gain a body modification that allows your body to perform actions related to this force, and resistance to damage from your Ability. Talk to your DM about making and balancing this Ability.

Given To: Enhanced Pillar Men

Energy Conservation

You've become an expert at using your Stand's Ability. As such, you may expend less Stand Energy to perform the same Abilities.

You consume half as much Stand Energy when using abilities that consume it, except for Ultimate Ability, which consumes the same amount as normal.

Given To: Ability-Type Stands

Enhanced Ability

Your normal Stand Abilities greatly increase in power and potency. They cost the same amount, but you may use your Ability as a Free Action once per turn.

Given To: Requiem Stand

Extreme Healing Ripple

As an Action, you may use as many Ripple Points as you would like and touch somebody, healing $1d8 + \text{your Constitution Modifier}$ Hit Points for every 2 Ripple Points consumed.

Given To: Ripple Users

Feat of Power

As an Action, you may use your Stand to perform a great act of physical strength. You may lift an object as heavy as your Power Score multiplied by 50 in Kilograms. You may also use this ability to crush objects, break down walls, throw something, or perform any other act of great strength upon an object.

You may also use this ability to jump an amount of meters equal to your Stand's Power Score. You take 1 Bludgeoning Damage for every meter propelled when you stop moving and hit something. If you have something to cushion your fall or use Stand Leap, then you do not take damage.

This ability may not be used as an attack against a Creature, Undead, or Construct that does not wish to be manipulated by your Stand, unless they are Unconscious.

Given To: Power-Type Stands, Revenge-Type Stands, Act-Type Stands

Flesh Bud

Using some of your Secondary Muscular System, as well as 50 Energy, you may create a Flesh Bud. Flesh Buds are small collections of flesh that are placed upon the forehead. A Flesh Bud forces the one who it is implanted into to do the Vampire's bidding, despite the interests of the individual. However, this form of mind control does not completely change the personality of the victim in most cases. The only real change is in a person's goals and motives.

In order to implant a Flesh Bud into someone, you must place the Bud into their forehead as an Action. The target must be Grappled by you, and you must succeed on another Grapple Check in order to place the Flesh Bud into them.

Flesh Buds have an amount of Health equal to your Level in Vampire. If the Flesh Bud's health drops below zero, the Flesh Bud begins to die. However, if the Flesh Bud is still implanted within a Human's brain when this happens, the Flesh Bud lashes out, dealing 10d10 Slashing damage directly to the brain.

However, these Flesh Buds may be safely removed via a successful Medicine or Sleight of Hand Check (DC of 20), or through a direct hit using an attack from The Ripple. If the attack dealt by The Ripple deals an amount of damage equal or greater to the HP of the Flesh Bud, it is vaporized instantly in its entirety, without any chance to respond. The Flesh Bud is Undead flesh, and as such, it will immediately die when exposed to Sunlight.

The Flesh Bud will function normally for up to 3 years. After around 3.5 years have passed, the Flesh Bud will feed off of the blood of the brain directly, resulting in a loss of 1d4 Maximum HP per day. When the target's Maximum HP reaches zero, they are killed instantly. If the Vampire that implanted the Flesh Bud is killed, the Flesh Bud goes haywire, and the target becomes an Abomination.

Given To: Vampires

Flesh Grafting

You've gained the ability to start controlling individual cells and their function within your body. You may now replace things such as removed limbs, removed organs, removed bones, and even entire bodies, with the flesh of other humanoid creatures.

This taken flesh will assimilate to your body much faster than if you were to attempt to grow back your own body through Regeneration. You may also use this ability to connect living or undead creatures together in order to create Chimeras. Talk to your DM to determine the stats and abilities of the Chimeras that you create. You may perform this Ability at any time, without limit.

Attaching your Head to a new body, and making it perfectly attuned to yours, takes 1d6 days. While the new body is assimilating, it may regenerate a maximum of 1 HP per round, as opposed to the normal amount. Grafting the full body or a body part of a Hamon User takes 5d100 Days instead, for a perfect graft.

In theory, you could also use this ability to fix injuries of living creatures, and as an Action, you could give an amount of Hit Points equal to your Level in Vampire to someone.

Given To: Vampires, Enhanced Pillar Men

Flight

The amount of energy in your body is immense, and you may now convert some of your body's mass into hydrogen and keep it within your body causing you to float in the air.

You now have a flying speed of 2 meters per round, and if you do not move you may levitate for indefinite periods of time and make your effective weight less than zero, with a minimum weight of inverse your normal weight. You may also use this ability to walk on vertical surfaces or on a ceiling.

Given To: Vampires

Freezing Touch

As an Unarmed Strike, you may take almost all of the liquid and a lot of heat from any of your limbs, lowering the effective temperature of each limb to around -40 degrees Celsius.

If you successfully land this Attack, the target must make a Constitution Saving Throw, taking 6d8 Cold damage and becoming unable to move the affected limb on failure. The target takes half damage, and is not affected, on a successful Save.

The Saving Throw may be repeated at the end of every one of the affected target's turns, and if succeeded, the effect ends on their limb. You may use this Feature an amount of times equal to your Proficiency Bonus per Long Rest.

Given To: Vampires

General Anchors

As an Enhancement-Type Stand User you've taken your ability to the next level. Rather than having to anchor onto something very specific, you may now anchor onto anything that's similar to your original anchor.

For example, Wheel of Fortune would be able to anchor onto anything with wheels instead of a specific car, or Strength would be able to anchor onto anything that floats in water instead of a specific boat.

Given To: Enhancement-Type Stands

Ghoul Creation

When you kill someone using Vampiric Feeding or touch a corpse, you may activate this as a Bonus Action. You take an almost immeasurably small amount of Vampiric Essence, and use it to replace the blood you have consumed.

This ability costs 50 Energy, and can be used once per Short Rest. Upon using this Ability, the affected body revives at the start of their next turn as a Ghoul.

Given To: Vampires

Ghoulish Agility

You get Advantage on all Dexterity Saving Throws. You also get an additional 2 meters of movement speed and a +1 Bonus to your Body's AC.

Given To: Ghouls

Ghoulish Double Health

Ghouls get 1d6 + their Constitution Modifier Head HP for each level they had, whereas the Body of a Ghoul has twice the health they had in life. The Head also has +5 to its AC.

Given To: Ghouls

Ghoulish Strength

You get Advantage on all Strength Saving Throws, and as an Action, you may lift or throw an object up to 20 times your Strength score in kilograms.

Given To: Ghouls

Gravitational Pull

The Corpse has the ability to bring non-living objects and terrain towards its user. Any terrain within sight can be brought to the user's feet within a matter of 5 seconds (or one turn). The surrounding terrain will shift around it to accommodate for the moving earth.

Given To: Holy Corpse Holder

Harden Flesh

As an Attack, you may hit yourself or an ally with a Sphere, dealing no damage and instead giving them 2d6 + Your Dexterity Modifier Temporary Hit Points. This benefit lasts for a maximum of one minute.

Given To: Spin Users

Healing Hands

As an Action, you may touch an Unconscious (but still living) creature, and restore them to 1 Hit Point.

Given To: Ripple Users

Healing Ripple

As an Action, you may spend 1 Ripple Point and touch somebody else or yourself to heal 1d4 + your Constitution Modifier points of damage. You may spend additional Ripple Points to add additional d4s, but you may only add the Modifier once.

Given To: Ripple Users

Heavenly Ability

This ability costs 50 SE when activated and costs 1 SE per turn if passive. Heavenly Abilities set Heaven Ascended Stands above all other Abilities of mortal beings. Heavenly Abilities are typically based on a particular word or phrase of great personal importance to the User, usually relating to their beliefs.

As a general rule of thumb, when a Heavenly Ability is activated, if the Heaven Ascended Stand is intentionally using its full power, the entire universe could be affected. However, as powerful as this may seem, these abilities are usually broad, and affect a large area indiscriminately. The less broad an Ability, the stronger it is.

For example, Made In Heaven can speed up time exponentially without end, but it affects everybody indiscriminately, with no ability to stop it once time begins to speed up. The World Over Heaven, on the other hand, can rewrite reality itself (sometimes even changing the laws of physics in a small region), with the trade off being that it has to hit something with its fists in order to change it.

Given To: Heaven Stand

Hot Pursuit

Whenever you are chasing after somebody, your Stand may keep pace with them regardless of Movement Speed, so long as you can see them and they remain within your Stand's Range.

Given To: Ranged-Type Stands, Hive-Type Stands

Hypnosis

By reflecting light within your eyes for an entire turn, you may send your brain waves through the air and take control of another living creature. The Range of this Feature is 3 Meters, and you must make direct eye contact with the target in order to use this ability.

The opposing creature must make a Wisdom Saving Throw against your Vampiric DC. If the save is successful nothing happens, but if the throw is failed the creature becomes Hypnotized.

This effect lasts up to an hour. While a creature is Hypnotized, they must follow any and all commands given to them by their Vampiric Controller, even if it would put them in the way of harm or be completely opposed to the creature's normal goals. If they are not given commands by you, they simply remain in the general position they were in when they were Hypnotized, and they count as Incapacitated.

You may end this Hypnosis before the hour is up, if you so wish. They may remake the Saving Throw every time they take damage, or if an ally uses their Action to try to shake them out of it, with the effect ending on success. The effect also ends if the target falls Unconscious. You may use this Feature once per Long Rest.

Given To: Vampires

Immense Power

Your Stand is versatile, but was limited by its strength before now.

Multiply your Stand's Power by 2. Any points gained to your Stand's Power from now on are also multiplied by 2.

Given To: Remote-Type Stands

Immense Range

Your Stand is powerful, but was limited by how far it could be away from you before now.

Multiply your Stand's Range by 10. Any points gained to your Stand's Range from now on are also multiplied by 10.

Given To: Remote-Type Stands, Enhancement-Type Stands, Revenge-Type Stands

Immense Resistance

Your Stand is incredibly resilient, a reflection of your willpower and experience.

Rather than using the normal Damage Reduction formula, you may instead simply reduce an amount of damage equal to your Durability Modifier + your Constitution Modifier (even if you are an Independent-Type Stand).

If you obtain the Armored Stand ability, it replaces this one.

Given To: Enhancement-Type Stands, Independent-Type Stands, Hive-Type Stands

Immortality

You gain new Hit Dice, being d20s, and lose your Vampire or EPM Double Health.

You may reroll the Hit Points gained in all previous levels using these new Hit Dice upon transforming. You also regenerate an amount of Hit Points equal to your Constitution Modifier every round, and may choose to spend as many Hit Dice as you would like as an Action.

Given To: Ultimate Beings

Improved Imitation

You can perform any Action that any creature can, but better. When viewing any Action performed by a living creature, you may Imitate it instantly without having to roll for it.

You may also Imitate Actions viewed in the past. This means that you may gain up to 5 Class Features from other Classes. You may change the Class Features that you know as a Bonus Action.

Given To: Ultimate Beings

Incalculable Fortune

If the User is not currently using another aspect of Love Train, they may instead activate this Ability. This Ability causes protection and good fortune to befall a group of people, an organization, or anything in general, determined by The Corpse's User.

This luck protects and helps the chosen entity, at the cost of other people. If one person is obtaining a lot of luck, another randomly chosen person is extremely unlucky. If land is blessed, there is an equal amount of land somewhere in the world that is seemingly cursed. The same applies for anything made. The limit of this ability is half of the land/people/entities in the world, as the net fortune has to equal zero.

Given To: Holy Corpse Holder

Ionic Rippling

Your Ripple has progressed, and become more powerful. It is now able to affect energy-based abilities and interact with any form of energy, including warping light itself.

You may use this to create illusions, warping the path of light and making objects look like they are in different locations than where they actually are. You cannot, however, attack or affect Stands using this ability.

Given To: Ripple Users

Lasting Grudge

Rather than lasting for an amount of turns equal to your level in Revenge-Type (minimum of 2), your Grudge Points last for an amount of minutes equal to your level in Revenge-Type (minimum of 2).

Additionally, when you spend 5 Points to summon your Stand in its entirety, rather than lasting for an amount of turns equal to your level in Revenge-Type (minimum of 2), it lasts for a number of minutes equal to your level in Revenge-Type (minimum of 2).

Given To: Revenge-Type Stands

Life Magnet

When finding a collection of significant biomass, as an Action, you may spend 5 Ripple Points to collect up to 1 Metric ton of it together and manipulate it in any way you'd like.

Examples of biomass manipulation include creating a leaf glider, creating a hole in a tree to hide in, or using blades of grass to create skin tight armor.

Each additional turn of manipulation costs 1 Ripple Point. You may move while Life Magnet is being used, but if you stop touching the biomass the structure falls apart. The Structure has an amount of Hit Points equal three times your Level in The Ripple and has an AC equal to your Ripple DC.

Given To: Ripple Users

Liquid Solidification

Ripple is an art made to fight against the Undead. However, as time continued, many other uses were discovered for it, such as regenerative and defensive abilities as well as changing the properties of physical objects.

The waves of energy produced by the Ripple may force the surface tension of the water to form a tangible, solid "skin" over it. This "skin" may be used for a variety of purposes, such as holding water without using a container, blocking water from moving, or even walking on water. Activating such an ability takes a Bonus Action, and it costs 2 Ripple Points each round.

Given To: Ripple Users

Living Drones

You may take a portion of your body's matter, or up to 100 Energy, and convert it into any Small (or smaller) living creature, a physical characteristic of a creature, or any organic matter.

This may be separated or attached to your body, and reattached or separated at will. If the Drone created has a brain, it will act as a normal animal of its species would in any given situation. However, you may also send commands that override the creature's standard brain function, effectively controlling it.

Given To: Ultimate Beings

Medicinal Spin

As an Attack, you may throw a Sphere into the flesh of a creature within the Short Range of the Sphere you are using. If you hit them you do not deal damage, instead performing one of the following medicinal abilities:

- Restore the target to 1 Hit Point if they are at 0
- Remove one of the following conditions from the target: Poisoned, Paralyzed, or Stunned
- Ensure that any healing the target receives until the end of their next turn is doubled

Regardless of the action chosen, pain is dulled from all wounds around the area of impact.

Given To: Spin Users

Melee Barrage

Using this attack takes an entire turn (consuming Action, Bonus Action, and Movement Action), you may perform a number of melee attacks equal to your Stand's Speed Modifier (+6 Speed would mean 6 attacks in one Melee Barrage), with a maximum of 10 Attacks.

Each hit functions as normal in terms of the Attack rolls, but when you deal damage, you do not add your Stand's Power Modifier to the Damage Rolls. The Damage Dice for these attacks does NOT increase at Level 11 (A Power Type's Damage Dice changes from 1d12 to 2d10 at Level 11, but the maximum for this ability would still be 10d12).

Furthermore, you may not Activate a Stand Ability with any of these Attacks, and if you roll a 1 on any of these attack rolls, the Melee Barrage ends.

For Act Types, it should be noted that Act 3 Melee Barrage uses 1d10, rather than 2d8 for the damage dice.

Given To: Power-Type Stands, Ranged-Type Stands, Independent-Type Stands, Act-Type Stands

Mobile Ability

Through clever use of your Stand's Ability you've found a way to use your ability to propel yourself, or boost your movement in some way. As an Action, you may spend 2 Stand Energy and gain one of the following benefits for 3 turns (not including the one that you activate it on). You may only have one of the following buffs active at a time.

- Gain 5 meters of movement speed per turn
- You may make an additional Attack per Attack Action
- You may use your Bonus Action twice per turn

Given To: Ability-Type Stands, Independent-Type Stands

Mobile Wave

The individual instances of your Stand may work as a collective, with the purpose of moving you to one place extremely quickly. As an Action, you and your Stand may be transported to the same place, up to an amount of meters equal to twice your Stand's Movement Speed, without consuming your Movement Action. You may also climb, move through water, or across Difficult Terrain without penalty to your movement.

Given To: Hive-Type Stands

Muscle Contraction

As an Attack, you may throw a Sphere into your own or another creature's muscles. The affected muscles move as normal for the most part, and the target gains additional Strength equal to your Dexterity Modifier. This effect lasts for an amount of turns equal to your Level in The Spin.

Given To: Spin Users

Mysterious Disappearance

When you are killed, your body rapidly crumbles in dust that easily dissipates. One turn after you die, your remains are completely gone.

Given To: Rock Humans

Near-Death Escape

When your HP is at a quarter of your maximum or less, you may activate this Ability as a Reaction.

For the next minute, you may Dash, Disengage, or Hide as a Bonus Action, but if you use your Stand Ability or deal any damage the Ability ends prematurely.

You may use this ability once per Short Rest.

Given To: Revenge-Type Stands

Oblivious Facade

You've attempted to hide the fact that you're a Stand User numerous times before. You know what works, and what doesn't.

You get Advantage on Deception Checks to pass yourself off as a Non-Stand User.

Given To: Ranged-Type Stands, Remote-Type Stands, Enhancement-Type Stands, Independent-Type Stands, Revenge-Type Stands, Hive-Type Stands

Offensive Blow

If you have not used your Movement Action for this turn, you may hold your ground and perform an Offensive Blow as a Bonus Action. This gives you Advantage on the next attack that you take this turn, and you may use it at any point while attacking, as long as you have at least one attack remaining for your turn.

If the attack with Advantage hits, you may roll double your Stand's Attack Dice for Damage. You may not use your Movement Action after using this ability.

Given To: Power-Type Stands

Perfect Form

All of your Ability Scores increase by 5. You also have advantage on all Skill Checks and Saving Throws. You gain Proficiency in any Skill/Weapon/Tactic you have ever seen used before or used yourself.

Given To: Ultimate Beings

Perfect Spiral

As an Action, you may throw a Sphere through the air. This Sphere deals 10 times the damage that your normal throw does. However, in order to perform this action, you must either be flying through the air in the shape of The Golden Spiral (DC 25 Acrobatics Check), or be riding a horse at a perfect speed (DC 25 Animal Handling Check).

If you are able to perform this feat, your Stand either manifests or evolves. Stands are a manifestation of the User's fighting spirit. However, through use of the Golden Spin, you may artificially trigger one of two events relating to a Stand.

If a Non-Stand User uses this ability, use of The Golden Evolution will trigger their Stand to Manifest. This Stand temporarily manifests as any kind of Stand, at Level 15 in their Stand Type.

If the Spin User is already also a Stand User and they activate this ability, it triggers a Stand Evolution.

The Stand granted through this Golden Evolution doubles all of the Stand's normal Stats, greatly enhances the potency of the Stand's Abilities, and even gives it one more new ability. A good rule of thumb is that after using the Golden Ability once, one's influence could affect an entire city. You and your Stand can also choose to be immune to any Abilities relating to the manipulation of time or space.

The Golden Evolution lasts for 1 hour, after which your Stand Evolution reverts or you lose your Stand if you didn't previously have one.

Given To: Spin Users

Physical Change

Requiem Stands have immense power. Take all of your Stand's Stats and double them.

Given To: Requiem Stand

Pincer Attack

In order to prepare this Attack, you must successfully hide your Stand in a specific place within your Range. Preparing your Stand in a hiding place also counts as an Action.

Once it has been prepared, you may activate this ability when you perform the Attack Action. You may spend just one Attack, but both you and your Stand may both make an Attack. Both of these Attacks also gain Advantage.

Given To: Ranged-Type Stands

Powerful Flex

As an Action, and at the cost of 1 Stand Energy, you may use your Ability in a threatening way in order to make an Intimidation roll with Advantage.

Given To: Ability-Type Stands, Hive-Type Stands

Primal Charm

You've noticed that your body has changed in the time following your transformation. Your canines have become fangs, your hair has become long and now grows extremely quickly, and the irises of your eyes glow a soft, threatening red.

Your Charisma Score increases by 2, and you are now Proficient in Persuasion, Performance, and Intimidation Rolls. If you were already Proficient in any of these Skills, you may gain Expertise in them instead.

Given To: Vampires, Pillar Men, Enhanced Pillar Men, Vampire Children

Primal Offspring

You gain the ability to influence the genetics of your offspring. When you would engage in activities that would normally produce healthy human offspring, you may choose the genes that are passed along. The child's genetics may be entirely from you, or have influence from the DNA of flesh you have grafted into yourself and the genes of your partner.

The child grows and develops as a normal child of the same race as your partner, but has the chance to display some unique features gained from an Undead ancestry. They may also gain the Primal Charm Feature.

Given To: Vampires

Programmed Stand

Your Stand does not follow your command. Rather, you may set a simple program that your Stand must follow.

Examples include: preventing anybody from entering a specific building, using your ability on anyone who opens a door, attacking anyone who steps into a shadow, etc.

Given To: Remote-Type Stands

Ranged Attack

Destructive energy is summoned from deep within your Stand and somehow released in a direction with the intent to harm or deal damage. Using this attack consumes an entire Action, allowing you to fire Stand projectiles (flavor as you'd like) in one of two ways:

Focused Attack: Make 1 Attack Roll against a single target in range using your Precision + Proficiency Bonus, dealing Stand damage of a type of your choice on hit. This attack deals an amount of d8s equal to the number of Attacks you

have plus your Speed Modifier. For example, a Stand User with 120 Speed (and thus 3 attacks), would deal 3d8+12 damage. The range of this attack is 10/20 meters, increasing to 20/40 at Level 11.

Burst Attack: Everyone within a 5 meter cone (10 meters at Level 11) in front of your Stand must make a Dexterity Saving Throw. The DC for this Save is 8 + Precision + Proficiency Bonus. If any creature within the cone fails the Save, they take Stand damage of a type of your choice. This deals an amount of d8s equal to the number of Attacks you have. For example, a Stand User with 120 Speed (and thus 3 attacks), would deal 3d8 damage.

Given To: Ranged-Type Stands, Ability-Type Stands, Independent-Type Stands

Remote Grappler

Your Stand is practiced in Grappling in order to engage in combat with somebody.

Your Stand now gets Advantage when attempting to grapple a Stand, Object, or Stand User.

Given To: Remote-Type Stands

Requiem Ability

This is one of the most powerful abilities a Stand can possess. When used, at the cost of 3 SE, this kind of Ability has ridiculous power. Work with your DM to determine how this power works. However, there are some general guidelines that should be followed.

First, your Requiem Ability is based upon what your greatest desire or goal was when you pierced yourself. This Ability manifests so that you may more easily achieve that goal or desire. As a general rule of thumb, a Requiem Ability should have enough power that, when used, the entirety of a town/city would notice all at once (if you wanted to show your full power).

Another general rule is that most Requiem Abilities are defensive, and cannot be activated by the user. Requiem Abilities also typically manifest in the form of a power that affects time, space, or living souls.

Given To: Requiem Stand

Restraining Spin

As an Attack, you may throw a Sphere into the flesh of a creature within your Sphere's Range. If you hit them, roll normal damage and your target must make a Constitution Saving Throw, becoming Restrained until the end of your next turn on failure. If your target is already Restrained, you may not use Restraining Spin on them.

Given To: Spin Users

Return to Sender

When you throw a Sphere, you may choose to have it return to you after damaging/hitting/missing its target.

Given To: Spin Users

Ripple Cutter

As an Attack, at the cost of 4 Ripple Points, you are able to take any Ripple conductor (liquids, metals, organic material) and split it apart, propelling it through the air and imbuing it with Ripple energy.

The range on the Attack is a 5 meter cone in any one direction. Targets must make a Dexterity saving throw, taking 4d10 Slashing damage or half as much on a successful save.

Given To: Ripple Users

Ripple Pressure

This action takes one turn to perform, but may be charged for longer than that, with a cost of 1 Ripple Point per turn. Ripple Pressure is a technique that continuously channels Ripple Energy into an airtight container, which builds up pressure. When the container cannot take it anymore, something gives, and the contents of this container burst out.

For every turn that the container has Ripple put into it, it deals 1d6 more Radiant damage, with a maximum of 8d6 in any one container. You may release it as a Reaction, creating a 5 meter cone of damage. Those caught inside of the cone must make a Dexterity Saving Throw, taking half damage on a Successful Save.

Given To: Ripple Users

Ripple Regeneration

You gain an amount of Hit Points equal to your Constitution Modifier back at the start of every turn, when you are conscious.

Given To: Ripple Users

Ripple Shield

As an Action, if there are enough materials nearby to use it. This action costs 5 ripple points. You are able to take any Ripple conductor and hold it together using the Ripple.

This Shield gives you and anyone within 1 meter of you an amount of additional AC equal to your Constitution Modifier. It lasts until the start of your next turn, and may be sustained for as long as you would prefer, with a Ripple Point cost of 1 per turn. However, if you do this, you may not perform any kind of Action outside of Free Actions.

Given To: Ripple Users

Rippling Weapon

As a Bonus Action, you may spend 2 Ripple Points to imbue a melee weapon (or an Unarmed Strike) with The Ripple. When you make a Rippling Weapon, it deals additional Radiant damage equal to twice your Unarmed Attack Dice (if you had 1d6 as your Unarmed Attack damage, you may deal an additional 2d6 Radiant Damage on your next successful strike with the Weapon). The extra damage goes away if you hit something with the weapon, or if your turn ends.

Given To: Ripple Users

Rotting Flesh

Your flesh dries out, and you smell like rotting meat. You have disadvantage on all rolls where you attempt to pass off as a living human.

Given To: Zombies

Satellite Spin

This ability requires a custom-made Sphere, with several marble-sized balls embedded on the outside of the Sphere. When this Sphere is thrown, all creatures within 3m of the target must make a Dex Save against your Spin DC, rolling a d6 on failure and losing the corresponding sense for 1d6 turns.

1. Taste
2. Smell
3. Touch
4. Hearing
5. Sight
6. Instead of losing a sense, take 1d12 Bludgeoning damage. This increases to 2d12 at Level 7, and 3d12 at Level 14.

The Satellite Sphere is destroyed after being thrown, and cannot be used again.

Given To: Spin Users

Scarlet Overdrive

As an Attack that costs 4 Ripple Points, you may harness the power of the sun within the beat of your own blood and form a new kind of Ripple: a Ripple of flame.

You may make an Unarmed Strike as normal, dealing an additional amount of Fire damage equal to twice the damage dealt by an Unarmed Strike if it lands. For example, an Unarmed Strike that would deal 1d10 + 3 Damage would add 2d10 + 6 Fire damage.

Given To: Ripple Users

Sculpt Sphere

Through use of the Spin, you've found that you can create Spheres out of everyday materials by grabbing a clump of something in one hand and spinning it.

In order to create a Sphere you must have a decently sized chunk of material in your hand, roughly the amount needed to form a baseball. As an Action, you may spin the material in your hand, shaving off the excess material and creating a Sphere suitable for use with the Spin.

Given To: Spin Users

Second Ability

Your Stand has undergone an evolution, and has gained a new Ability alongside its new form.

This Ability should be an evolution of your first Ability. Similar, but stronger or more versatile.

This Ability follows the same guidelines as any other Custom Ability.

Given To: Act-Type Stands

Second Life

This Ability Activates when you and your Stand die. Your body remains lifeless for between 1 minute and 24 hours. At some point within this timeframe, your Stand reawakens as an Independent-Type Stand, complete with your mental capacity and memories.

You retain all of your Experience Points, but all of your Health, Feats, Proficiencies and Abilities are reset. This effectively means you may make a new character with as many levels in Independent-Type as you had in Revenge-Type, as long as it retains the same memories you had in your first life.

Given To: Revenge-Type Stands

Self-Acclimation

You've spent so much time manipulating certain elements that you've gained Immunity to one damage type. This Immunity should relate to your Stand Ability in some way. For example, Ghiaccio's Cold Immunity. You also gain Immunity to that type's Stand counterpart.

Pillar Men, and Undead of all kinds cannot choose Radiant as the damage type for which they are immune.

Given To: Ability-Type Stands

Self-Preservation

Your Stand may assess situations and make a basic judgement on them. If your Stand believes that the task at hand is too great, it may, instead of carrying out its programming, Hide, Defend, or Retreat.

Given To: Remote-Type Stands

Self-Repair

Your Stand (which may be yourself) acts independently of everything else. It does not have a physical form outside of the form that it has taken. As such, you must find a way to protect yourself and survive.

As an Action, you may roll a Hit Die to heal, but you must spend 2 Hit Dice in order to roll one Hit Die. If you do not have enough Hit Dice for that roll, you may not heal.

Outside of Combat, every minute that you stand perfectly still, you may heal an amount of HP equal to your Durability Modifier.

Given To: Independent-Type Stands

Sendo Overdrive

As an Attack, and at the cost of 3 Ripple Points, your mastery of The Ripple allows you to affect objects from a distance. By carefully aiming, you can influence matter at a distance so long as there is a proper conduit.

Proper conduits include liquids, metals, or organisms, and these have a range of roughly 10 meters. Sendo may also be sent through an improper conduit, but doing this reduces the effective range down to 2 meters. Sendo Overdrive, if aimed at a target, deals an additional amount of Radiant damage equal to what your Unarmed Attacks deal.

Given To: Ripple Users

Sendo Spin

As an Attack, you may take a Sphere and throw it into an object. The energy produced by the Sphere will send vibrations up to one meter away from the point of impact. These vibrations are violent, and if placed correctly, could cause tunnels to collapse, sand to fall, rocks to shift, or the ground underneath somebody's feet to become unsteady.

You may throw beneath someone's feet (if they are standing on solid ground), and they must make a Dexterity Saving Throw, becoming Prone on failure. You may also change one square meter of a surface into Difficult Terrain.

Given To: Spin Users

Silent Movement

Through experience you've gained better control of your Stand, allowing you to move your Stand extremely carefully to ensure that the only way that your Stand may be detected is when it is seen.

Your Stand's movement is silent. When it moves in an attempt to evade detection, they may roll Stealth with Advantage.

Given To: Ranged-Type Stands, Hive-Type Stands, Act-Type Stands

Slippery

Your Stand has the ability to defend you and let you escape from very dangerous situations with relative ease.

When your Stand is within 2 meters of you, you may Disengage or Hide as a Bonus Action.

Given To: Ranged-Type Stands, Ability-Type Stands, Act-Type Stands

Space Ripper Stingy Eyes

As an Attack, you are able to highly pressurize liquid within your eyeballs, convert it all into light, and fire it in the form of lasers. You may fire either one or two lasers at once, one for each eye.

Any Creature caught within the laser's Range must make a Dexterity Saving Throw against your Vampire DC, taking 2d8 Piercing damage on a failed save, and no damage on a successful one. This damage cannot be reduced or circumvented in any way.

There is no effective Range for this attack. The Laser will simply travel in a straight line wherever you aim, and it will continue to travel, despite any physical objects in the way. If there are several targets in the straight line that you fire at, they are all potentially hit by the laser.

Reflective objects may reflect the laser, but no matter can really stop it completely. You may perform this action an amount of times equal to your Proficiency Bonus, per Short or Long Rest.

Given To: Vampires

Special Ability

These are powers that use the same concept of the regular Custom Ability, but taken to a whole new level. These abilities have immense strength, but at a higher cost (usually twice the Stand Energy).

Special Abilities are usually 1 bracket of Die stronger than the ability would be normally (d4 would become d6, d6 would become d8, etc.). They also take more time to perform. Usually, but not always, taking a Full Action to perform.

Examples of Special Abilities are The World's The World, King Crimson's Time Deletion, or Weather Report's Heavy Weather.

A Special Ability might also be a passive ability that functions independently of activation, or one that may be activated or deactivated at will. Passive Abilities consume 2 Stand Energy at the Start of the Stand User's Turn, and also take their Bonus Action to perform. If you are unable to use your Bonus Action, or you do not have enough Stand Energy remaining, the ability simply stops functioning.

Given To: Power-Type Stands, Ranged-Type Stands, Remote-Type Stands, Ability-Type Stands, Enhancement-Type Stands, Independent-Type Stands, Revenge-Type Stands, Hive-Type Stands

Special Technique

As a competent user of The Spin, you've figured out how to properly use the excess energy produced in a creative way. Talk to your DM about making this Special Technique functional.

Given To: Spin Users

Speedy Movement

Through experience you've built up the movement speed of your Stand. At any time, as a Reaction, you may call your Stand back to you, allowing it to come back and defend you or perform any action requiring your Stand to be near you, up to its Movement Speed.

This also means that your AC may be increased to your Stand's AC if it is able to return to you. However, if it passes through the Melee Range of a Stand or Creature that can sense it while returning to you, the Stand or Creature may make an Opportunity Attack against your Stand.

Given To: Ranged-Type Stands, Act-Type Stands

Speedy Switch

As a Reaction, you may switch between anchors for your Enhancement Stand very quickly, meaning that if someone attempts to hit you and you activate this ability, the first hit misses automatically. However, if your Stand moves outside of someone's Melee Range, they can still take an Attack of Opportunity.

Given To: Enhancement-Type Stands

Spherical Spin

You may throw an object similar in shape to a sphere and imbue it with the energy of The Spin. A regular Spherical Spin attack deals damage based vibrations produced by the rotation, as well as the damage the actual object deals. Different Materials deal more damage based upon density, with more dense objects being more powerful.

To calculate your Attack Bonus with Spherical Spin attacks, treat them as Finesse Thrown Weapons (meaning you can add either Str or Dex), but remember that different materials deal different amounts of damage and have different ranges. You can find these values in a table on the main page for The Spin.

Given To: Spin Users

Split Stand

As a Hive Type Stand User, your Stand functions very differently than a typical Stand. Rather than a Stand being an extension of your will to fight, each Instance of your Stand is like a separate organism that simply must follow your orders. You may have anywhere between 2 and 500 Instances, though once chosen this number must remain constant.

Each Instance of your Stand only has a fraction of the Power of a regular Stand, but each Instance may act independently of the others or the Stand User. If one Instance is totally destroyed, that fraction of the User's Health is taken away. For example, if you have 12 Instances of your Stand and one gets destroyed you'll take damage equal to your maximum health divided by 12.

If every Instance of your Stand is destroyed, you fall unconscious. If your health is restored, so are your Stand Instances. Even when you fall unconscious, one instance will remain. Only when you die is that Instance destroyed.

Given To: Hive-Type Stands

Stand Energy Recharge

You have very strong abilities, but it's very tiring to try to use them repeatedly. Luckily, you've learned through practice how to pace yourself and replenish your energy. As an Action, you may regain an amount of Stand Energy equal to your Charisma Modifier.

Given To: Ability-Type Stands

Stand Leap

At the cost of 5 meters of your Movement Action your Stand may punch or kick against a strong, rigid surface in order to propel both the Stand and User into the air. This can be done straight up, horizontally, or at an angle somewhere in between.

The Stand User can move an amount of meters equal to their Stand's Power Modifier in any direction midair. Also, as a Reaction, you can negate all Fall Damage.

Given To: Power-Type Stands, Act-Type Stands

Stand Marking

As an Action, you may "Mark" a specific object or person with your Stand, so long as the target is within your Stand's Range and activates a specific, predetermined trigger at some point.

When a person or object is "Marked" your Stand automatically follows them, affecting them with their ability. This effect continues until you recall your Stand back to you, you are killed, or the object/person that is Marked is destroyed/killed.

When something is Marked by your Stand, the amount of meters that your Stand is active within is equal to your Stand's Range Score (not Modifier). If the object or person leaves your Range your Stand returns to you, but may instantly jump back to the object if the object/person reenters the range of your Stand Marking.

Given To: Remote-Type Stands, Enhancement-Type Stands, Revenge-Type Stands, Hive-Type Stands

Stand Pickpocketing

Through trial and error you've gained the ability to slip objects from the grasp of other people using your Stand. From now on, you have Advantage when making Sleight of Hand checks using your Stand.

Given To: Ranged-Type Stands, Hive-Type Stands, Act-Type Stands

Stand Rush

When your enemy or your enemy's Stand has been incapacitated, restrained, or unwilling to fight for a full turn or more while in your Stand's Melee Range, you may perform this action. You may also start this action for free when you drop someone to 0 Hit Points using some sort of Melee Attack with your Stand.

A Stand Rush takes an entire turn, but if desired, may go on for a maximum of 10 turns. Through this action, your Stand may punch an amount of times equal to your Stand's Speed Modifier. You may choose whether or not to make this attack lethal. When trapped within a Stand Rush, no actions can be taken.

Given To: Power-Type Stands, Independent-Type Stands, Act-Type Stands

Stone Cold Willpower

Over 95% of Rock Humans are born with a Stand Ability. Roll a d20. If your number rolled is anything other than 1, you are a natural-born Stand User (if you rolled a 1, you may still have the potential to gain a Stand, you are just not born with one).

Given To: Rock Humans

Stoneflesh

As an Action you enter full hibernation, gaining a thick layer of stone over your skin and entering a dormant state. You may not move while in this state, nor take any actions whatsoever. Your scent disappears, and you become practically indistinguishable from a regular boulder.

In this state, your AC increases by 5, your Con score increases by 20, and you resist all damage types.

Given To: Rock Humans

Sunlight Yellow Overdrive

As an entire turn (meaning that your Action, Bonus Action, Movement Action, and Reaction are all used, and if you have used any part of your turn you may not use this ability), you may spend 4 Ripple Points and make a number of Unarmed Attacks equal to your Constitution Modifier. You may choose whether or not to make this attack lethal.

Given To: Ripple Users

Superior Feeding

Your Body has changed on a cellular level. As a Pillar Man, your body was already fully accustomed to consuming living beings. However, now every cell in your body may break down living tissue and make it into energy extremely quickly. By simply touching living flesh, you may absorb the matter present and convert it into energy in a matter of seconds.

You may also use this as an attack. You may make contact with living flesh using your body and begin to absorb it. Upon making sustained contact, or as part of an Unarmed Strike, your flesh deals 1d6 Acid damage per turn.

This process becomes faster as you level up, dealing 2d6 at Level 5, 3d6 at Level 10, 4d6 at Level 15, and 5d6 at Level 20.

Given To: Enhanced Pillar Men

Supernatural Force

Through the power of The Spin, the Force damage that you deal using The Spin is now able to damage Stands as well. The damage you deal becomes Stand Force damage, and affects Stands in a similar way to other Stand damage. Furthermore, you are now able to see and sense Stands.

Given To: Spin Users

Surging Energy

You gain 1 Stand Energy back at the start of each of your turns.

Given To: Requiem Stand

Tendon Twister

As an Attack, you may throw a Sphere into a creature within the Short Range of the Sphere used. Pick a limb and make a standard Attack. If the Sphere hits your Opponent, they may not use the targeted limb for an amount of turns equal to your Dexterity Modifier.

Given To: Spin Users

The Wall

In a line between The Corpse and slightly past the User, a two-dimensional grid is created with a small dimensional pocket dimension inside that only the current user of The Corpse can access. While within this wall, all damage directed at the person in the pocket dimension is redirected to somebody else random in the world. However, while in this dimension, you may also not make attacks unless you reach outside of the pocket dimension to attack. This effect is clearly visible to everybody, including non-stand users.

This dimensional barrier is immune to all attacks, with exception to things that are on the same power level as The Holy Corpse. Things that break through the dimensional wall include Attacks and Abilities from Requiem Stands, Abilities of Heaven Ascended Stands, a physical melee Attack from an Ultimate Being, or from an object with the Perfect Spiral. These Attacks/Abilities may affect you, but even if they do, any damage that you take is halved.

Given To: Holy Corpse Holder

Third Ability

Your Stand has undergone another evolution, and has gained a new Ability alongside its new form.

This Ability should be an evolution of your second Ability. Similar, but stronger or more versatile.

This Ability follows the same guidelines as any other Custom Ability.

Given To: Act-Type Stands

Total Body Control

Every part of your body has tiny muscles inside of it, allowing every single part of your body to move around freely.

As an Action or Bonus Action, you may split, reassemble, flatten, inflate, or otherwise modify your body in almost any way imaginable, so long as it remains in one piece.

Given To: Enhanced Pillar Men

Toxin Expulsion

Your blood moves and sends energy through your body. Foreign, harmful substances are detected and removed from the body automatically through the point of entry (venom exists through the injection site, poison is immediately spit up completely, etc.).

You are now immune to toxins of all sorts, including diseases. You gain Immunity to Poison and Acid damage.

Given To: Ripple Users

Twisting Spin

As an Attack, you may throw a Sphere against a creature, surface, or even yourself. Anything that is a soft solid, a liquid, or skin may be affected by this. This action twists surfaces in a spiral shape, causing any liquid hiding under the skin or within the semisolid to be forced out.

This action may be used to reduce water weight, to dehydrate people, or to collect liquid that has soaked into a semisolid, such as dirt, mud, or even sand.

Given To: Spin Users

Two Modes

Interestingly, you have somehow gained power over your Stand, despite how incredibly volatile Remote Stands can be. At any time, as an Attack, you may switch to or from Ranged Mode.

In Ranged Mode, Remote Stands may function as any other Stand does, in that they may be controlled by the user's will, and can follow specific commands. However, while in Ranged Mode, you may not use your Stand Ability. If your Stand has Stand Marking active, that also deactivates upon changing to Ranged Mode. Your Stand's stats do not change upon switching modes.

Given To: Remote-Type Stands

Ultimate Nature

You are now resistant to UV light, as well as all other forms of damage, including Radiant. You do not need to sleep, and you must only intake organic matter equal to your body mass once every month. You gain 5 energy for every turn when you are in direct UV light, through passive photosynthesis.

You may also enter a dormant state, in which you do not move or think, and stay in this state for up to one million years.

You also sense at the maximum possible level, being able to detect the change in nearby air currents, see better than any ground-based telescope, and hear any and every noise that has any wave that reaches your ears.

Given To: Ultimate Beings

Ultimate Stand Ability

This ability is something that very few Stands or Stand users are able to get to. It's an incredibly powerful ability that uses a lot of your Stand's Energy. This Ability costs 5 Stand Energy, and this SE cost cannot be reduced.

An example of an Ultimate Stand Ability is White Album's Gently Weeps.

Given To: Ability-Type Stands

Undead Nature

As a creature that has been changed and twisted, you have been removed from the traditional life cycle. Part of life is decay and death, but you have ascended beyond decay itself.

As an Undead Creature you do not age in any capacity, and are physically incapable of doing so. When converted into an Undead Creature, your body regains the youth that you may have lost, bringing your physical age to roughly 25, at the peak of your physical performance. If you are exposed to the Stone Mask when you are younger your mind fully develops and matures, and you continue to mature normally until you reach 25, and at that time you stop aging. You also do not need to sleep.

You are unable to be affected by any poison, toxin, or venom, so you gain Immunity to Poison damage and the Poisoned Condition, but acids still affect you normally.

You are unable to feel pain, except Radiant damage. Your body takes 1d100 Radiant damage every turn when any part of your body is exposed to direct sunlight. Your Head also takes 1d100 Radiant damage every turn when exposed to direct sunlight. This sunlight damage cannot be reduced in any way.

If your Body Hit Points reach 0 you become unable to move until you regenerate or are healed in some other fashion. When your Head's Hit Points reach 0 you become incapacitated like normal.

Given To: Zombies, Ghouls, Vampires, Enhanced Pillar Men

Vampire Creation

You've gained enough knowledge of the function of your own body that you've found out how exactly the Stone Mask or your Master changed your anatomy. Rather than taking blood away from your target, you may take a corpse or living creature, and simply infuse a large amount of your own blood, mixed with a decent amount of Vampiric Essence. This takes an entire turn to accomplish.

If the creature that you've attempted to convert is living, they must make a Constitution Saving Throw against your Vampire DC. Every time they fail the saving throw, they take 2d12 Piercing damage, which cannot be blocked or reduced in any way. If the target succeeds, they no longer take damage and the effect ends. When the target drops to below 0 hit points, they go unconscious.

After a full turn, the affected individual/corpse becomes a Level 1 Vampire, and they keep whatever Levels they had previously, or if they were a lower level Undead, they regain the Levels that they once had in life.

Upon becoming a Vampire, it is important to note that you do not lose your Experience Points. However, in order to level up further, you must meet the stated Energy requirement.

The Vampire created has total free will, and is not obligated to serve or obey you in any way. Their mind is as it was in life, the only difference being that they are now a Vampire as well.

Given To: Vampires

Vampire Double Health

As a Vampire you get the same amount of Hit Points that you did when you were alive. However, your Hit Dice becomes 1d10, unless it was already the same or higher. Your Head Hit Dice is 1d4, and it has an additional +5 added to its AC.

Given To: Vampires

Vampiric Body Control

You've become accustomed to the idea that the individual cells within your body are, in fact, under your conscious control. You may now perform tasks that would normally be impossible for a human. You can fit yourself through small spaces, reknit bones, and fractures in them almost instantly, and even fully heal from Sunlight/Ripple inflicted wounds, without having to pick away the scar first (although this takes a decent amount of time).

You may also choose to override standard Human self-preservation instincts, such as breathing, the inability to severely harm yourself, and even the ability to simply shut down specific parts of your body, and reboot them at will. Shutting down parts is instant, but rebooting them is a Bonus Action. You may also put muscular cells and bones in places where they should not be normally.

Given To: Vampires

Vampiric Dormancy

Normally, as a Vampire, you have to Feed for at least 10 energy once per week. However, you may, if you so choose, enter a state of extended Dormancy, in which every part of your body ceases to function, and it is effectively preserved.

This preservative runs throughout your entire body and brain, allowing your body to stay virtually the same for extended periods of time. Your brain almost completely stops functioning, and you must set a trigger to awaken you, such as a loud noise, or movement within a certain radius. When this trigger is activated, it takes an entire turn for you to return to your full self, with full control over your body.

Entering a state of Vampiric Dormancy takes one full minute (or 10 turns). You may survive in the state of Vampiric Dormancy for up to 500 years. Past around 500 years, every year you spend in Dormancy consumes 10 Energy from you. If you run out of Energy, your brain shuts off fully, and you die. Losing Energy does not cause you to lose Levels in Vampire.

Given To: Vampires

Vampiric Feeding

As an Attack, you may make a Grapple Check upon a living creature. If you are successful, you place the blood vessels of your hand upon the creature and connect them to the body you have grappled.

The damage dealt by this is 1d6 + your Level of Vampire Piercing Damage. This damage is dealt at the start of each of their turns until they escape your Grapple, and you heal half of the damage dealt.

Alternatively, if your target is willing, Incapacitated, or Unconscious, you may use this Ability to remove Energy from them, up to an amount equal to your Proficiency Bonus.

Given To: Vampires

Vampiric Musculature

Every time you level up from now on, including now, you may permanently add 1 to your Constitution, Dexterity, or Strength Score.

Given To: Vampires

Vampiric Peak

You have perfectly honed your Vampiric Abilities, and your brain has been brought to its fullest potential, meaning that the only way to improve from here would be an option other than simply consuming blood. If you obtain a Completed Stone Mask, you may don it, put UV light into the Mask, and become an Ultimate Being.

Given To: Vampires

Vampiric Regeneration

You gain an amount of Hit Points back in either your Head or Body for an amount equal to your Constitution Modifier, every time Initiative is rolled (each round).

Furthermore, as an Action, you may restore Hit Dice to yourself. You may only restore 1 Hit Die per Action. Hit Points restored by this feature can either restore Hit Points to your Head or Body, and you may split Hit Points restored between the two if desired.

Given To: Vampires

Vampiric Senses

The Stone Mask, or a Master of some sort, has unlocked the true potential of your Human Mind. Your body can perceive much more accurately, and your mind can quickly and efficiently process this information.

You are now Proficient in Perception Rolls, and you may add your Proficiency Bonus to your Perception Rolls and Passive Perception, even if you already had Proficiency or Expertise in them.

Given To: Vampires

Vicious Misfortune

While in possession of The Holy Corpse, if either you injure someone and are aware of the injury, you may choose how exactly the injury affects the person. You can reduce all damage, increase the damage caused, or even move the wound to a different part of the body. For example, a prick on the finger could be amplified and moved to the internal heart valve, causing an almost certain mortal wound.

It takes 2 full turns for one of these wounds to become fatal. If healed at least 50 HP by a Stand's power, the Ripple, or a different supernatural technique within that window of time, the harm caused may instead only be applied to the original location of the wound, affecting the body as a wound of that type would normally. If the damage is restored, the receiver of the wound simply drops to 0 HP and becomes stable, rather than dying.

Given To: Holy Corpse Holder

Wrist Memory

You've become so accustomed to taking out and putting away Spheres that you no longer need to look down to do it. You may now draw and put away Spheres as Free Actions.

Given To: Spin Users

Zombie Creation

When you kill someone using Vampiric Feeding or touch a corpse, you may activate this as a Bonus Action. You take an almost immeasurably small amount of Vampiric Essence and use it to replace the blood you have consumed.

This ability costs 5 Energy, and can be used an amount of times equal to your Level in Vampire per Long Rest. Upon using this Ability, the affected body revives at the start of their next turn as a Zombie.

Given To: Vampires

Zombie Double Health

As the weakest kind of Undead, Zombies have the same kind of power that other Undead have, just in a much weaker form. Zombies have 1d4 + their Constitution Modifier HP in their Head for each level they had, whereas the Body of a Zombie has 3 times the health they had in life at Level 1. The Head also has +5 to its AC.

Given To: Zombies

Zombie Infection

As an Action, you may infect living humans using your Ability and convert them into Zombies. When some of your blood or saliva comes into contact with a living being's blood they must make a Constitution Saving Throw (DC 10), taking 2d6 Necrotic damage on a failed save. If the target succeeds on the save, they take no damage.

If the Necrotic damage dealt to the target kills them, they revive at the start of their next turn as a Zombie. You may also use this ability to revive a freshly deceased body, so long as they died within 24 hours of exposure or if they have been preserved through other means such as freezing.

Given To: Zombies, Ghouls

Zombie Strength

Zombies have an Advantage on all Strength Saving Throws, and as an Action, Zombies may lift or throw an object weighing up to 5 times their Strength score in kilograms.

Given To: Zombies

Zoom Punch

As an Attack, you may spend 2 Ripple Points and make an Unarmed Strike. This punch deals additional Radiant damage equal to your Unarmed Damage Dice and gives you an Additional meter of Range for that attack.

Given To: Ripple Users

WEAPONS

Weapons and Stands:

Normal weapons cannot damage Stands. However, if you take the Energy Imbuement Feat, when an object is imbued (or incorporated into the Stand itself) it deals the same kind of damage that it would normally, but it can now affect Stands (for example, Slashing becomes Stand Slashing).

If your Stand wields a weapon or has a weapon incorporated into it, it may attack using its own stats rather than that of the user. For example, Strength becomes Power, Dexterity becomes Precision, and Constitution becomes Durability.

Weapon Types:

A weapon falls into four kinds of categories: Simple, Martial, Explosive, or Improvised. Certain Feats will give proficiency in the use of these weapon types.

Simple: A weapon that anyone with a small amount of training could reasonably wield. Martial Artists and Sharpshooters often make effective use of these simple and reliable weapons (Examples of Simple Weapons: Any D&D 5e Simple Weapons, Pistols, Double-Barrelled Shotguns, Revolvers). The Simple Weapon Focus and Professional Weapon Training feats give proficiency in the use of these weapons.

Martial: A weapon that takes a higher level of training and maintenance. Extensive or Military weapons are examples of this. Typically more powerful, but also far more complicated (Examples of Martial Weapons: Any D&D 5e Martial Weapons, Assault Rifles, Miniguns, Sniper Rifles). The Professional Weapon Training feat gives proficiency in the use of these weapons.

Explosives: A weapon that detonates violently in a radius, destroying itself and much of its environment in the process, with any creature caught within the radius making a Dexterity Saving Throw against the DC of the weapon. Thrown or detonated explosives are destroyed when used, but Explosives that have the Ranged Property only have their ammo detonated (Examples of Explosives: Gasoline Tanks, Grenades, RPGs). The Demolitionist feat gives proficiency in the use of these weapons.

Improvised: Objects found within an environment not intended to be used as weaponry. They use the user's Strength for attack and damage rolls, use a d4 for their damage die, and have a 5/15 range, should you choose to throw them (Examples of Improvised Weapons include: Hubcaps, Steel Chairs, Wrenches). The Martial Arts and Tavern Brawler feats give proficiency in the use of these weapons.

Weapon Attributes:

Ambush: Whenever you attack a target who is Surprised with this weapon, if you hit your target, you automatically deal a critical hit.

Bulky: Before you use this weapon to attack, you must use your bonus action to Brace.

Complex: Rather than taking one attack to reload, this weapon requires three attacks to reload.

Concealed: Gives a bonus equal to the number provided by this attribute on all attempts made to conceal the weapon.

Firearm: Creates a loud noise when fired, ammo does not function when wet, and when a nat 1 is rolled on attack rolls with a weapon with this attribute, the weapon becomes jammed, and an action must be spent to make it function again.

Flame: Whenever the target of the attack takes fire damage, if the target is flammable, they are set ablaze.

Light: When you wield two weapons with the Light property at once, you may make an additional attack without penalty on your turn as a bonus action using either weapon.

Point Blank: You may make ranged attacks in melee without penalty. Additionally, when you are within melee range of a prone target, you have advantage to hit them with attacks made with this weapon.

Radius: The range in which you must make a Dexterity Saving Throw against an explosive.

Ranged: This weapon can fire up to its short range (the top number), or as far as its long range (the bottom number) with Disadvantage. Firing within melee range imposes Disadvantage.

Reliable: A firearm that does not jam when a nat 1 is rolled on an attack roll.

Reload: How many times the weapon must be fired before an attack must be spent to reload.

Remote: An explosive that may be detonated as a bonus action, up to 1 kilometer away.

Siege: Deals double damage against objects.

Timer: You may set an amount of time for an explosive device. After the timer runs out, the explosive detonates. Can be set for up to 12 hours between priming and detonation.

Thrown: This weapon can be thrown to its short range (the top number), or as far as its long range (the bottom number) with Disadvantage. Throwing within melee range imposes Disadvantage.

Two-Handed: This weapon required two hands to attack with. May be carried using a singular hand.

If you are not proficient in the use of a weapon, you may still use it, but you may not add your proficiency bonus to attack rolls using it. If you do not meet the prerequisite for a weapon (for example, Strength 13+), your attacks with that weapon have disadvantage.

| Name | Weapon Type | Attributes | Weapon Specialization Type | Stat/DC | Damage | Prereq. |

ADRENALINE RUSH

Prerequisite: 13 Strength or Higher, or your Passion must be Hard Laborer

Description:

The body has a remarkable tendency to keep itself alive in tough situations, and your body is even better at doing so.

Effects:

- As a Bonus Action you may activate this ability, giving you Advantage on all Strength, Constitution, and Dexterity Saving Throws, and an amount of Temporary Hit Points equal to your Level. These benefits last for up to 10 Rounds (1 Minute).
- You can use this Feat an amount of times equal to your Strength Modifier per Long Rest.

ART OF DISTRACTION

Prerequisite: Proficiency in Performance Checks

Description:

People are easy to fool, this is something that you've learned over years of experience.

Effects:

- You're able to trap a helpless person within a conversation by spending your Action each turn and rolling a Performance Check against a single, non-hostile target's Wisdom saving throw. While keeping this individual distracted in this way, their movement speed is reduced to 0 and they cannot roll higher than 10 on a Perception Check, and their Passive Perception is now restricted to 10 at most.
- You may keep a person trapped in this conversational purgatory for up to 10 minutes, until you stop spending your action or they succeed on their save, or something very obviously out of the ordinary happens in a way that you can't explain.
- Additionally, you have figured out a way to enthrall several people by using your Action each turn to may keep an amount of non-hostile people equal to your Charisma Modifier focused on what you're doing for up to a minute. Anyone caught in this effect has Disadvantage on all Perception Checks, and has a -5 penalty to their Passive Perception.

BLENDING FIGHTING

Prerequisite: Must be a Stand User of Level 1 or higher.

Description:

Your Stand is certainly a powerful weapon, but that won't stop you from fighting as well.

Effects:

- When you make at least one Attack using your Stand you as the User may also make an Attack as a Bonus Action. This attack may be made with a Weapon, Unarmed Strike, or any other action that counts as a singular attack (such as a Grapple). This attack must use your own Stats, not your Stand's.

BRUTALITY

Description:

You've seen a lot of combat and have learned not to hold back.

Effects:

- If you miss your target on a Melee Attack roll you may make the same Melee Attack as a Bonus Action. If this attack lands upon the intended target it is a guaranteed Critical Hit.
- The damage dealt by this Brutality Attack cannot be Non-Lethal Damage.
- You may use this ability once per Short or Long Rest, but it is not consumed if it misses.

CALCULATING

Prerequisite: Must be a Level 1 Stand User or higher

Description:

A lot of Stand Users have their ability's strength tied to their willpower, but that is not always the case. Some use knowledge or their surroundings to make their abilities terrifying.

Effects:

- You may use Intelligence, Wisdom, or Charisma to determine your Stand DC, and your Stand DC increases by 2.
- If you have other Class Features relating to your Charisma Modifier like Stand Energy Recharge, you may also use Intelligence or Wisdom for them instead.

CATLIKE AGILITY

Prerequisite: 13 Dexterity or Higher, or your Passion must be Artist

Description:

Your reflexes are faster than that of the average person.

Effects:

- Once per short rest, you may Dodge as a Bonus Action.
- Additionally, while Dodging through any means, you may reduce incoming damage by half until the start of your next turn.

CLEVER DISGUISE

Description:

You're used to getting away from people and fighting from a distance. However, if those coming after you have seen your face or recognize you in any way, you may need a new set of clothes and a haircut to pass yourself off as someone else.

Effects:

- You may spend 1 Minute to create a disguise for yourself.
- While disguised, you gain Advantage on all Deception Checks to pass yourself off as someone else and any attempts to determine your true identity are made with Disadvantage.

CLEAVE

Description:

You know how to create and take advantage of opportunities.

Effects:

- When you drop a creature to 0 Hit Points using a Melee Attack you may perform another Melee Attack.
- A Successful Cleave may trigger other Cleave attacks.

COMBAT MEDIC

Prerequisite: Int 13+ or Medical Expert

Description:

Your medical knowledge is priceless on the battlefield.

Effects:

- You may make Medicine Checks as a Bonus Actions.
- If you have a first aid kit or something similar you may make a DC 15 Medicine Check as an Action upon a creature that you can touch. On success, the creature may spend a Hit Die to heal.

COMMENTATOR

Description:

You're able to follow what's happening in combat and describe it for others.

Effects:

- As a reaction, you may use the Help Action on an ally within 10 meters. However, your character must narrate what they are doing (Like Speedwagon).
- You may do this an amount of times equal to your Charisma Modifier per Long Rest.

CONSISTENT ACCURACY

Description:

You're very skilled at judging distance and accurately striking your target.

Effects:

- When making attacks using Thrown or Ranged Weapons (including Ranged Attack), you may aim up to the Weapon's Long Range without Disadvantage.

CONSISTENT SKILLS

Description:

You've practiced your craft over and over again, to the point of perfection.

Effects:

- When making a Skill Check that you have Proficiency or Expertise with, if you roll a 9 or lower on the d20 roll you may treat the roll as a 10.

DEADLY ACCURACY

Prerequisite: 13 Dexterity or higher

Description:

Your aim is steady and true, and you know exactly where to fire to maximize damage.

Effects:

- When making an Attack with a weapon you may choose to use a full Action and Bonus Action to attack. If you choose to do this, you can add your To-Hit Bonus twice.
- Upon a successful Hit, you may roll double the Damage Dice that you would roll normally and gain Advantage on them.
- This Feat may be activated even when you use the ability that gives you Advantage on a Sniper Rifle.
- When used with Ranged Attack this Feat instead only gives Advantage on the Damage Dice rolled.

DEMOLITIONIST

Description:

You've handled your fair-share of explosives, and know how to do so safely.

Effects:

- You become proficient in Explosive Weapons.
- When you use or detonate an explosive weapon, the DC for them increases by 2.
- In addition, you have advantage on any check made to disarm/setup weapons, as well as saving throws made against them (such as a Dex Save against a Grenade).

ENERGY IMBUEMENT

Prerequisite: Must be a Stand User of Level 1 or Higher

Description:

Some Stand Users are able to extend just a little bit of energy into a physical object, making it a permanent part of their Stand.

Effects:

- You may make an object a permanent part of your Stand by imbuing it with Stand Energy for 8 hours.
- The object now deals Stand damage and gains the same resistance that the rest of your Stand has.
- If the object is destroyed, it does not damage the User in any way and it regenerates mass at a rate of 1kg/hour.
- If the object is a Ranged Weapon then you may refill its ammo to maximum capacity as a single Attack at the cost of 1 Stand Energy.
- This Feat may not be replaced once the object is permanently imbued.
- You may take this Feat multiple times if desired.

ENHANCED STAND SENSES

Prerequisite: Must be a Stand User with the Class Feature Detached Senses

Description:

You have spent enough time looking through your Stand that it feels as comfortable as using your own senses.

Effects:

- When looking through your Stand you gain Advantage on Perception Checks and your Passive Perception is doubled.

EVASIVE

Prerequisite: 13 Dexterity or higher

Description:

You're quick on your feet and know how to navigate a battlefield.

Effects:

- When you succeed a Dexterity Saving Throw you take no damage.
- When you fail a Dexterity Saving Throw you only take half damage.

EXEMPLAR

Description:

You're an inspiring person that leads by example and you serve as a model for others to look up to.

Effects:

- At any time, you may give 1 point of inspiration to an ally of your choice.
- You may use this Feat once per Long Rest, and if this point of inspiration is not used by the next Long Rest (or day), it expires.

FORTUNE TELLER

Description:

Some people have a gift that allows them to see Fate's inner workings. This allows them to see the future in a very specific way that isn't very helpful until the time of divination comes to pass.

Effects:

- At the end of each Long Rest, roll 3d20 and write the result of each roll down.
- At any point, you may replace a d20 roll for an ally, yourself, or an enemy with one of the d20 rolls written down.
- Once you have used a number, it cannot be used again.

GUARDIANS WRATH

Prerequisite: Revenge-Type User Level 1+

Description:

You're passionate about protecting those close to you and will lash out at those who bring them harm.

Effects:

- Whenever someone you consider to be a close ally or friend fulfills one of the conditions where Grudge Points are gained, you gain a Grudge Point.
- You may only have one ally at a time where these conditions are met, and you may change which one you have selected as a Bonus Action.

GUERRILLA FIGHTER

Description:

You make use of irregular tactics in combat, including ambushes, sabotage, and hit-and-runs.

Effects:

- You may hide as a Bonus Action.
- For you, Half Cover counts as Three-Quarters Cover, and Three-Quarters Cover counts as Total Cover.
- You may get up from the Prone Condition as a Reaction, or by spending only 1m of Movement on your turn.

HEADHUNTER

Description:

You've fought the Undead many times before, and you know their tricks and how to best defeat them.

Effects:

- You get +5 to all Attack rolls aimed at Undead Creatures' heads.
- You gain Advantage on any Saving Throws against effects inflicted by an Undead Creature.

HEART OF LIES

Prerequisite: You must not have the Heart of Truth Feat

Description:

You've defeated countless enemies and overcome all challenges presented to you, dropping every foe in your way.

Effects:

- When one of your attacks kills an enemy, roll a d4. If you roll a 4, you gain 1 point of Inspiration.

HEART OF TRUTH

Prerequisite: You must not have the Heart of Lies Feat

Description:

You've gone through a lot in life. You've witnessed struggle, pain, and possibly even death itself. You've seen the absolute worst of Humanity. and that is why it is of absolute importance that you achieve your goals.

Effects:

- When you use a point of Inspiration, roll a d4. If you roll a 4, you gain back a point of Inspiration.

HEAVY SLEEPER

Prerequisite: Cannot have Light Sleeper.

Description:

You rest efficiently, and can sleep through almost anything.

Effects:

- You only need to sleep for 4 hours to gain the benefits of a Long Rest. The rest of the time may be spent doing light activities.
- You may take a 5 minute nap to gain the benefits of a full Short Rest. Additionally, you may either restore 2 expended Hit Dice or regain one use of a Feature or Ability that would normally be restored on a Long Rest.
- You may take a nap like this equal to half of your Proficiency Bonus rounded down each Long Rest.

HEAVY SPECIALIZATION

Description:

Through all of the time you've spent lugging around and using heavy equipment you've realized how to deal the most damage using these powerful, heavy weapons.

Effects:

- When you Brace with a Heavy Weapon, you gain a +2 bonus to your Armor Class until the beginning of your next turn.
- You gain proficiency in the use of any weapon with the "Heavy" specialization type.
- If you are already Proficient in the use of a Heavy Weapon that you use, you may instead gain expertise.

HIDDEN ASSASSIN

Description:

You've spent a lot of time in the shadows and know how to keep yourself concealed.

Effects:

- When making an attack with a Ranged weapon you do not reveal your position after your first shot, but on your second.
- If you do not perform any other Action outside of this first shot, you may roll for damage twice and use the higher value.

IMMEDIATE CONNECTION

Prerequisite: 13 Charisma or Higher, or your Passion must be Con Artist

Description:

You've spent a lot of time around other people, both those that you know very well as well as strangers.

Effects:

- You gain Advantage on all Persuasion and Deception Checks on people that you've met within the past 24 hours.

IMMENSE IMPACT

Description:

You're used to utilizing momentum to attack your foes with a powerful attack, hitting them immediately and head-on.

Effects:

- This first attack you make after moving in a straight line towards your target deals extra damage equal to the amount of meters moved before attacking this turn. The maximum additional damage you may deal with this attack is equal to your level.
- You may also perform a Charge Attack, allowing you to make one free melee attack after moving in a straight line. You may use this ability once per turn.

IMPROVISED HEALING

Prerequisite: 13 Wisdom or Higher, or your Passion must be Survivalist

Description:

You've spent a lot of time out in the wild, simply trying to survive in an unforgiving environment.

Effects:

- You gain Advantage on all Survival and Medicine Checks.

INTERPRETER

Prerequisite: 13 Intelligence or Higher, or your Passion must be Service Worker

Description:

Through time spent learning languages you have gotten much better at learning new ones as well as decoding unknown languages.

Effects:

- You learn 3 additional languages and learn another at Levels 5 and 10.
- You gain Advantage on Skill Checks related to attempting to understand the meaning of an unknown language or script.

JACK OF ALL TRADES

Description:

You're decently skilled at just about everything.

Effects:

- You may add half of your Proficiency Bonus (rounded down) to all Skill Checks that you do not have Proficiency or Expertise in.

LEVEL-HEADED

Prerequisite: 13 Intelligence or Higher, or your Passion must be Academic

Description:

Your level head allows you to get out of most situations using your experience and clever mind.

Effects:

- When making a Charisma or Wisdom Saving Throw you may instead choose to make an Intelligence Saving Throw.

LIGHT SLEEPER

Prerequisite: Cannot have Heavy Sleeper

Description:

You regain consciousness fairly quickly.

Effects:

- While sleeping, you may use your Passive Perception as you would while conscious.
- You only need to succeed 2 Death Saves to become Stable, and upon becoming Stable you may expend an amount of Hit Dice equal to your Proficiency Bonus to regain HP.
- You may also expend Hit Dice when being revived via an ally's Medicine Check.

MARTIAL ARTS

Description:

Through knowledge and training you have become remarkably effective in unarmed combat.

Effects:

- When you attack with an unarmed strike, you may deal 1d8 Bludgeoning damage instead of 1d4.
- Additionally, when you make an Athletics check to Shove or Grapple a target, you may use Dexterity or Strength for the check. You may also give a target the Restrained Condition if you spend a full action to make an additional grapple check against the target. If you are successful, you may give the target the Restrained Condition, so long as you continue to use your full action every turn to keep them restrained, and you do not move.
- Furthermore, you gain proficiency in the use of Improvised Weapons, and Expertise in Unarmed Strikes or Melee Attacks using your stand.

MELEE SPECIALIZATION

Description:

Through knowledge and training you have become remarkably effective at fighting using melee weapons.

Effects:

- When you are hit with a melee attack and wielding a weapon that you are proficient in, you may use your reaction to add a bonus to your AC equal to your Proficiency Bonus against all melee attacks until the start of your next turn.
- When you deal damage with a melee weapon on your turn, you may reroll the damage dice once per turn. You must keep the new roll.
- You gain proficiency in the use of any weapon with the "Melee" specialization type.
- If you are already proficient in the use of a weapon with the melee category, you instead gain expertise.

MENACING AURA

Description:

You radiate threatening energy.

Effects:

- You get a bonus of +2 to all Intimidation Checks.
- You may take this Feat up to 3 times if desired, for a maximum bonus of +6 to Intimidation.

MOTIVATED

Description:

You have an incredible tendency to bounce back, even when the odds are stacked against you.

Effects:

- When you fail a Saving Throw, you may instead choose to succeed.
- You may use this Feat an amount of times equal to half your Proficiency Bonus (rounded down) per Long Rest.

NATURAL ARMOR

Prerequisite: Must be a Rock Human

Description:

Because of your unique physiology you may change your body between several different forms.

Effects:

- Humanoid: No changes.
- Hybrid: +5 Temporary Hit Points, +5 AC, -5 meters Movement Speed, Resistance to Slashing damage (as well as Stand Slashing).
- Rock: +20 Temporary Hit Points, +10 AC, No Movement Speed, Resistance to all physical damage (and their Stand counterparts).
- The only Actions you can take in Rock Form are Stand Actions or changing forms.
- Changing forms takes a full Action.

NATURAL TALENT

Description:

Through a combination of experience and natural-born talent you have gotten very good at certain tasks.

Effects:

- Choose up to Two Skills that you are Proficient in and gain Expertise in them.
- You may take this Feat multiple times if desired.

NATURAL TOUGHNESS

Prerequisite: 13 Constitution or Higher, or your Passion must be Traveler

Description:

Your body is accustomed to dealing with intensely stressful conditions.

Effects:

- Each time you level up and roll for additional Hit Points, roll twice and take the higher of the two rolls.

PARANOIA

Description:

You've been aware of them for a while now. You don't know who, but you know that they've been after you for so long, and you've been evading them for what seems like forever.

Effects:

- You may add your Proficiency Bonus to your Initiative Bonus, and enemies that attempt to surprise you get Disadvantage instead of Advantage on their Surprise Attack.
- Additionally, you may use your Stand to defend against surprise attacks if you have one.

PERFECTED CRAFT

Description:

You've spent countless hours training a specific skill, and it's clear that effort paid off.

Effects:

- You may choose to gain Mastery in a skill that you have Expertise in, allowing you to add your Proficiency Bonus to it 3 times.

PRESSURE POINT MANIPULATOR

Description:

Through time spent studying the human body you've found the best way to hinder movement, cause immense pain, and defeat foes with little force.

Effects:

- As an Action, you may make an Attack and choose a limb on your Target. Upon a successful hit, rather than dealing damage, the opponent may not use the limb that you targeted for an amount of turns equal to your Intelligence Modifier.

PROFESSIONAL WEAPON TRAINING

Description:

Through either extensive or military training, you know how to use almost any weapon.

Effects:

- You gain proficiency in the use of Simple and Martial Weapons.
- If you are already proficient in the use of either Simple or Martial Weapons, you instead gain expertise.

QUICK ON YOUR FEET

Description:

You're used to getting out of difficult situations using your wit.

Effects:

- You may gain Expertise in a Saving Throw that you're already Proficient in.
- You may gain Proficiency in two Saving Throws of your choice.

RESILIENT

Description:

Through luck or some sort of early exposure, you've become resistant to specific types of damage.

Effects:

- You and your Stand may choose to either become resistant to Piercing, Slashing, or Bludgeoning damage, or become resistant to any other three damage types of your choice.
- You also become resistant to the Stand counterpart of the chosen type(s).
- If you have a Damage Vulnerability, you may not use a Resistance to cancel it out.
- You may take this Feat multiple times if desired.

RIFLE SPECIALIZATION

Description:

Through training and patience, you have gained the ability to accurately use rifles.

Effects:

- When you hit with a 19 or a 20 on a 20-sided die to attack with any Rifle, that counts as a critical hit.
- You may attack at long range without disadvantage with any weapon with the “Rifle” weapon specialization type.
- You gain proficiency in the use of any weapon with the “Rifle” specialization type.
- If you are already Proficient in the use of a Rifle that you use, you may instead gain expertise.

SCARFLESH

Description:

You've gone through a lot of physical trauma, and your body has learned to adapt accordingly. Scar tissue is beginning to build up on your skin, as well as internally.

Effects:

- You gain Damage Reduction equal to twice your Constitution Modifier at the top of Initiative every round.
- This Damage Reduction doesn't conflict with Stand Damage Reduction, and unlike Stand DR, applies on any hit.

SHOTGUN SPECIALIZATION

Description:

Through knowledge and training, you have gained the ability to use shotguns to remarkable effect.

Effects:

- When you hit a medium or smaller creature with a shotgun blast at short range or closer, you may choose to cut the damage that you deal in half. When you do so, you may force them to make a Constitution Saving Throw (DC is 8 + your Constitution Modifier + Your Proficiency Bonus), and if they fail, you may knock them prone.
- You gain proficiency in the use of any weapon with the “Shotgun” specialization type.
- If you are already Proficient in the use of a Shotgun that you use, you may instead gain expertise.

SIDEARM SPECIALIZATION

Description:

Through knowledge and training, you have gained the ability to use sidearms to remarkable effect.

Effects:

- You may reload any weapon with the “Sidearm” weapon specialization type as a Free Action.
- You gain proficiency in the use of any weapon with the “Sidearm” specialization type.
- If you are already Proficient in the use of a Sidearm that you use, you may instead gain expertise.

SIMPLE WEAPON FOCUS

Description:

Through knowledge and training, you have gained the ability to use simple weapons to remarkable effect.

Effects:

- When you deal damage with a simple melee weapon, you may add an amount of damage equal to your proficiency bonus.
- However, when you attack with a simple ranged weapon, you instead add your proficiency bonus to the attack roll twice.
- You gain proficiency in the use of Simple Weapons.
- If you are already proficient in the use of Simple Weapons, you instead gain expertise.

SKIRMISHER

Description:

You focus on being light and mobile in combat, often sporadically attacking or making moves from a distance to harass the enemy.

Effects:

- You may Disengage as a Bonus Action.
- When you hit a creature with a Melee Attack, you may choose to make it so they cannot use reactions until the end of their next turn instead of dealing damage.
- You gain Advantage on any Saving Throw or Ability Check that would attempt to restrict your movement (grappling, restraining, paralyzing, etc).

STAND SPECIALIZATION

Prerequisite: Must be a Stand User with the Anchored Stand Class Feature

Description:

Due to the Nature of your Stand, there are some things that simply cannot harm you.

Effects:

- You and your Stand may gain Immunity to two damage types of your choice, but you gain Vulnerability to a damage type of your choice as well.
- These Immunities and Vulnerabilities should tie in to your Stand's Anchor or Ability. For example, a Stand made out of Fire could be immune to Fire and Radiant Damage, but be vulnerable to Cold damage.
- If you gain Immunity to Bludgeoning, Slashing, or Piercing, you only gain one Immunity instead of two.
- You also become immune to the Stand counterpart of the chosen type(s).
- You may gain Immunities at the cost of Vulnerabilities as many times as you wish.
- Vulnerabilities gained through this Feat cannot be canceled out by Resistance or Immunity gained through any means.

STROKE OF LUCK

Description:

You seem to have some sort of unknown force that protects you and watches over you, kicking in at the most crucial moments.

Effects:

- When you roll a 1 on any roll, you may instead choose to make it a 20.
- You may use this Feat an amount of times equal to half of your Proficiency Bonus (rounded down), per Long Rest.

SUPERHUMAN

Description:

People usually have limits on how strong or smart they can get, but this is not always the case. You've found a way to push yourself past human limits.

Effects:

- Pick one of your six Ability Scores to increase the maximum score for that stat by two.
- The Ability Score does not increase when you take this feat, only the maximum for it does.
- You may take this Feat multiple times if desired.

TANKY

Description:

Due to your abnormally stocky build, or just sheer commitment, you don't go down very easily in a fight.

Effects:

- Each Level, you gain an additional 2 Hit Points for your hit point maximum.
- This also applies retroactively, giving you twice your current Level additional maximum HP.
- You may take this Feat multiple times if desired.

TAVERN BRAWLER

Description:

Through experience and tussles, you've gained the ability to make objects from your environment into effective weaponry.

Effects:

- You gain proficiency in the use of Improvised Weapons.
- If you are already proficient in the use of Improvised Weapons, you instead gain expertise.
- If you make a melee attack against a target on your turn, you may either attack with an Improvised Weapon, or Grapple/Shove as a bonus action.

THROWN WEAPON SPECIALIZATION

Description:

You've spent a lot of time throwing all sorts of objects from darts to tomahawks and more.

Effects:

- You may draw a weapon with the “Thrown” specialization type as a free action.
- You may throw two of the same weapons with the Thrown specialization type or Improvised Weapons as a single Attack, without penalty to either object's accuracy or damage. You cannot do this with Spheres imbued with The Spin.
- You gain proficiency in the use of any weapon with the “Thrown” specialization type.
- If you are already Proficient in the use of a Thrown Weapon that you use, you may instead gain expertise.

TOXIN RESISTANCE

Description:

Through training and patience alongside incremental exposure, you have made your body resistant to almost all toxins.

Effects:

- You gain complete Immunity to poisons or toxins ingested (up to 1/4 Liter every 24 hours), and the Poisoned condition.
- You gain Advantage on all Constitution Saving Throws made against venoms, breathable toxins, and acids.
- You gain Resistance to Poison and Acid damage.

TRAINED COMBATANT

Prerequisite: Cannot be a Stand User

Description:

You're well-trained in combat, and really know how to overwhelm an opponent.

Effects:

- When you take the Attack Action, you may perform an additional Attack.
- You may take this Feat up to 3 times, granting a maximum of four Attacks per Action.

TRAP DETECTION

Description:

You've gone through your fair share of dangerous situations. Over time, you've built up an awareness of Traps and the ability to better sense danger.

Effects:

- You gain Advantage on Perception and Investigation Checks.

UNSTOPPABLE WILLPOWER

Description:

Some have an inner strength that simply cannot be stopped. Some are born with it, and others earn it through struggle and perseverance.

Effects:

- Any time you take damage that would put you at 0 Hit Points or below, you may make a Constitution (Not Durability), or Charisma Saving Throw.
- The DC of this throw is equal to the half of the damage dealt to you, or 15, whichever is higher.
- Upon Failure you simply drop to 0 HP. Upon Success you instead drop to, or remain at, 1 HP.

VETERAN SPRINTER

Prerequisite: 13 Strength or Higher, or your Passion must be Athlete

Description:

You've done a lot of running in your time, so running is kind of second nature to you at this point.

Effects:

- Your movement speed increases by 5 meters.
- You may Dash as a Bonus Action.
- You may perform a Reckless Dash, where, as an Action, you may move up to three times your Movement Speed.
- You may perform a Reckless Dash an amount of times equal to your Strength Modifier per Short or Long Rest.

SPECIAL RACES/CLASSES

Zombie

Description: *A Zombie is created whenever a Vampire takes blood out of a living human, or brings a shriveled corpse back from the dead. Zombies are creatures with great strength and durability, but almost total weakness to UV light. Most Zombies are slaves to their masters, but some Zombies may survive and live after their Master has left them in some way, mostly of their own free will but still slaves to their hunger for living flesh.*

Examples of Zombies: Police Zombie, Doobie, Jones.

Playing a Zombie: Zombies are powerful undead creatures, but they have several weaknesses and shortcomings, and they are the weakest type of Undead. Once a creature becomes a Zombie, they have reached their full potential, and may no longer grow or develop. A person turned Zombie keeps all of their stats and proficiencies, but they lose the ability to use their Stand. A Zombie must obey their master, as they are bound to them. If they have no orders, or no master, Zombies usually seek out flesh to satiate their immense hunger. Zombies are grotesque abominations, taking on some of the parts of Vampires, and immediately gaining immense strength. However, they, in their current state, may not become stronger. Regardless of the experience points gained by a Zombie, they cannot gain Levels. A Zombie can become a Vampire or an Ultimate Being, but they need the necessary equipment (Stone Mask or Completed Stone Mask, respectively).

Changes: When you become a Zombie, you retain all abilities, skills, and powers you had when you were a human. However, several things have changed. Any experience points gained are destroyed, and your class goes away. You then become a Level 1 Zombie. As Level 1 Zombie, your Strength increases by 2, your Constitution increases by 2, and your Dexterity Increases by 1. However, your Wisdom decreases by 3, your intelligence decreases by 4, and your Charisma score becomes 3 (unless it is lower, in which case, it remains the same). Zombies heal at roughly the same rate that they would heal before they became a Zombie. Any damage dealt by The Ripple or UV Radiation leaves a wicked scar, similar to a severe burn on a normal human. Zombies do not need to eat or drink normally, instead needing to eat raw flesh or living creatures, usually humanoids. Zombies need to eat either their entire body weight in Humans parts, or five times their body weight in animals, per month, in order to continue surviving. A Zombie may be turned into a higher form of Undead (Ghoul or Vampire), and they count as a fresh corpse for the purpose of any effects that would do so.

Racial Features (Definitions in the Abilities section)

- Undead Nature
- Rotting Flesh
- Zombie Double Health
- Zombie Infection
- Zombie Strength

Ghoul

Description: A Ghoul is very similar to a Zombie, in that it is created when a Vampire steals the blood out of a living human. However, rather than simply leaving a shriveled corpse, the Vampire replaces some of the taken blood with a small amount of Vampiric Essence (Ghouls may also be created from corpses, even if there are very little remains left of the corpse). This causes the Ghoul to undergo only minor changes as opposed to its Zombie counterpart. Ghouls are slaves to their Vampiric Masters, but not to the same level that Zombies are. Ghouls retain many skills and abilities that they once had, as well as their sense of pride and moral code. Their psyche is only changed to the point where they still may act independently of their Vampiric Masters, they simply respect and revere their Vampiric Masters. If someone more powerful were to come along, a Ghoul could potentially change their allegiance. Ghouls look very similar to their Human counterparts, and are able to pass as Human with little to no trouble at all.

Examples of Ghouls: Wang Chan, Jack the Ripper, Bruford, Tarkus, and Adams.

Playing a Ghoul: Ghouls are much stronger than Zombies for several reasons. **For starters, a Ghoul retains all power, abilities, and skills that they had in life**, including, if applicable, their Stand. Level 1 Ghoul is added to their character sheet, and they get to keep any Levels or Abilities that they had previously. However, once a character has become a Ghoul, they may not gain Levels in any class, regardless of experience points gained. A Ghoul may also become a Vampire or an Ultimate Being, but they need the necessary equipment in order to do so (Stone Mask or Completed Stone Mask, respectively).

Changes: Your Levels all stay the same, but you also become a Level 1 Ghoul on top of your already gathered abilities. You may not gain any more Levels, regardless of experience points gained. Your Strength and Constitution increase by 4, your Dexterity increases by 2, and your Intelligence, Wisdom, and Charisma all stay the same. Ghouls heal at roughly twice the rate that they would normally in life. Ghouls need to eat either their entire body weight in Human parts, or five times their body weight from animals, per week in order to continue surviving.

Racial Features (Definitions in the Abilities section)

- Undead Nature
- Ghoulish Double Health
- Zombie Infection
- Ghoulish Strength OR Ghoulish Agility

Vampire

Description: *Vampires are Humans that were able to find a Stone Mask, and awaken the true potential of the Human mind. In order to become a Vampire, a Human must put on and activate the Stone Mask. Vampires are a lot stronger than Humans, Zombies, or even Ghouls. Vampires have a wide array of powerful Abilities, but this power comes at a cost, as all things do. Vampires must consume the blood of the living in order to survive, as well as become stronger. A Vampire may also be created when a living Human or a corpse receives a large amount of blood from another, very powerful Vampire.*

Examples of Vampires: Dio Brando, Straits, Nukesaku, Vanilla Ice.

Playing a Vampire: Vampires are extremely powerful, but they have a massive flaw, and a huge weakness. Because Vampires are Undead, any exposure to sunlight or The Ripple disintegrates the flesh itself. Important: In order to level up, a Vampire must intake a certain amount of energy, **as well as be able to achieve that level in their class.** 1 Human equal to the mass of the Vampire equals 10 Energy. An animal equal to the mass of the Vampire equals 2 Energy. **Levels of Vampire DO NOT CLASSIFY AS MULTICLASSING.** In order to level up in a Class you must be the same Level of Vampire, but your Vampire Level can never be higher than your Class Level.

Note: *Vampires are not weakened by artifacts like holy symbols, Holy Water, or a stake to the heart. They are, however, still weak to sunlight. Vampires must feed, gaining at least 10 energy when doing so, every week. An average living Human gives 10 Energy, but up to three energy may be taken without killing them. Animal blood does work, but at 1/5th of the efficiency of Human blood. You may also drain other Undead (Zombies and Ghouls both have 10 Energy by default), but when you do so you only get half of the Energy that they have.*

Vampiric DC: 8 + Proficiency Bonus + Charisma Modifier

| Level | Energy |
|-------|--------|
| 1 | 0 |
| 2 | 10 |
| 3 | 15 |
| 4 | 20 |
| 5 | 30 |
| 6 | 45 |
| 7 | 75 |
| 8 | 100 |
| 9 | 150 |
| 10 | 225 |

| Level | Energy |

| 16 | Vampiric Dormancy |
| 17 | Embryo Implantation |
| 18 | Flesh Bud |
| 19 | Vampire Creation |
| 20 | Vampiric Peak |

Pillar Man

Description: *An ancient race of people, they lived extremely long lives and were very strong, but they were weak to the sun. Although it was originally thought that all of the Pillar Men were killed by Cars, that is not really the case.*

Some might have escaped and lived out long lives, or another extinction event occurred. Regardless, somehow, Pillar Men DNA got mixed up with some Human DNA, and passed down through the generations, lying dormant. Within some humans, the DNA of the Pillar Men lie, waiting to be activated. It may be activated through some sort of Trauma, or through lifestyle changes that mirror how the Pillar Men lived thousands of years ago.

Through eating only living or freshly killed creatures, avoiding sunlight, and adopting a nocturnal schedule, the DNA may be unlocked. However, once unlocked, it takes over, and the changes made cannot be reverted or reversed. To unlock it, you must have the Pillar Men DNA within your genome. It also takes 2 weeks of living the way that the Pillar Men did to unlock the genes, and to force them to take over.

Pillar Men is not really accurate, as there were also Pillar Women and Children. As such, Pillar Men is a misnomer, and you may be any gender, but still be classified as a "Pillar Man".

Example of a Pillar Man: Those killed by Cars in Battle Tendency, Cars before using the Stone Mask.

Note: Despite their weakness to sunlight and their enhanced physical characteristics, they are not Undead. Pillar Men can still be killed in the same way that a conventional Human would be, they are simply more resilient. This also means any Ability or Feat that refer to Undead do not include Pillar Men.

Changes: As a Pillar Man, you must eat a lot more to survive. You still eat food in the same way that a Human does, but your diet changes slightly. You must eat either living animals, or animals that were living an hour before you initially consumed them. You may cook your food, but you get the same amount of nutrients eating flesh either cooked or raw. Every part of an animal gives you nutrients, and as such, you may eat the entirety of the animal, including the bones. You may also eat fruit and vegetables, but they do not give you nutrients, nor do they sate your hunger. Humans need to eat around 2000 calories to stay healthy, and properly nourished, and Pillar Men need roughly 10000 calories to stay healthy. You also gain an aversion to UV light. When you are in direct sunlight, you take 1d4 Radiant Damage at the start of each of your turns, for every turn when you are in direct sunlight. Your Hit Dice increases to 1d8, unless it was higher or equal, in which case, it stays the same. You now age a lot slower than you would normally. Humans only live to around 70, but Pillar Men live to around 200 years old. Your Strength, Dexterity, and Constitution increase by 2.

Racial Features (Definitions in the Abilities section)

- Primal Charm

Enhanced Pillar Man

Description: *Thousands of years ago, a genius named Cars created the Stone Mask and tested it on himself, with the eventual goal of conquering the Sun, and being able to bask in its glow. The Stone Mask was an important step into this process. While it did not give him, nor his Pillar Men brethren any resistance to The Sun, it made them much, much stronger. The only drawback was that in order to sustain this new power, they had to consume massive amounts of energy.*

Examples of Enhanced Pillar Men: Santana, Wham, ACDC, Cars.

Playing an Enhanced Pillar Man: Enhanced Pillar Men are some of the strongest creatures ever to walk The Earth, with strength, speed, and intelligence that rivals every other animal. However, in order to sustain this power, you must absorb immense amounts of energy from animals. Not only that, but when you become an Enhanced Pillar Man, your weakness to UV Light and The Ripple actually becomes more acute. Important: In order to level up, an Enhanced Pillar Man must intake a certain amount of energy, **as well as be able to achieve that level in their class.** 1 Human equal to the mass of the Enhanced Pillar Man equals 10 Energy. An animal equal to the mass of the Enhanced Pillar Man equals 2 Energy. The following list shows how much total energy is needed for each level up. **Levels of Enhanced Pillar Man DO NOT CLASSIFY AS MULTICLASSING.** In order to level up in a Class you must be the same Level of Enhanced Pillar Man, but your Enhanced Pillar Man Level can never be higher than your Class Level.

Note: *Enhanced Pillar Men must feed, obtaining roughly 100 Energy every week in order to survive. A Human only provides 10 Energy (3 energy may be taken without killing them), animal blood only works at 1/5th the efficiency of Humans, and most Zombies and Ghouls only have 10 Energy which you only get half of. As such, it's best for an Enhanced Pillar Man to create or hunt down and consume Vampires, gaining half of their potentially much higher energy.*

Note: *Enhanced Pillar Men are an enhanced version of the Pillar Men, and as such get the same stat increases and racial features as Pillar Men.*

| Level | Energy |
|-------|--------|
| 1 | 0 |
| 2 | 100 |
| 3 | 150 |
| 4 | 200 |
| 5 | 300 |
| 6 | 450 |
| 7 | 750 |
| 8 | 1000 |
| 9 | 1500 |
| 10 | 2250 |

| 17 | Gain an extra Feat |
| 18 | EPM Muscular Proficiency |
| 19 | Gain an extra Feat |
| 20 | EPM Peak |

Abomination

Description: *Abominations are Humans who have had a Flesh Bud implanted into their brains by a Vampire that's been destroyed. The Flesh Bud goes haywire, permanently changing the function of the once humanoid body. Extremely aggressive tumors rapidly grow within a matter of minutes after the death of the Vampire that had planted the Flesh Bud, taking over almost every cell in the body. This makes the skin turn a mossy shade of green, and makes the previously normal Human completely unrecognizable. It also invades the mind, making your mental functions drop to around the levels of a dog.*

Example of an Abomination: Mr. Nijimura

Changes: Your Intelligence, Wisdom, and Charisma all Drop to 1. Your Strength and Dexterity both drop by 5, and you lose all Skills, Feats, and anything else you've learned. Your Class becomes Abomination Level 1. You may not gain Experience Points, nor level up and you lose all sense of humanity or sentience. You also become effectively immortal, healing 50 Hit Points at the top of the Initiative order every turn. If you drop to 0 Health Points, you go comatose. However, in order to die you must reach -200 HP or the inverse of your maximum HP, whichever is lower. Only then will you not regenerate, and finally be destroyed.

Ultimate Being

Description: *Thousands of years ago, Cars created the Stone Mask so that he and his people could conquer their one weakness; The Sun. However, in order to do this, Cars would have to go about changing the very way in which his body functioned down to a molecular level. An Ultimate Being is created when an Undead Humanoid of immense strength (Level 20 Enhanced Pillar Man/Vampire) dons The Completed Stone Mask. After donning it, and exposing the Mask to any sort of direct UV radiation, the Mask latches on, and forces a beam of energy directly into the brain of the wearer. This changes their anatomy on a molecular level, forcing their brain to evolve massively and changing every cell in the body so that each cell contains the DNA of all known living creatures on Earth. Ultimate Creatures are terrifying, and there are very few creatures that could even hope to stand a chance against them.*

Note: *When becoming an Ultimate Being, the Undead Nature feature is lost.*

Racial Features (Definitions in the Abilities section)

- Perfect Form
- Ultimate Nature
- Immortality
- Improved Imitation
- Living Drones

Rock Human

Description: *Rock Humans are an elusive evolutionary cousin of humans, but with a few key differences. For starters, Rock Humans usually live for around 240 years, and are silicone, rather than carbon based. Rock Humans must hibernate relatively often in periods of 1-3 months, but after hibernating they don't need to sleep for two months. While hibernating, a layer of stone covers their flesh and all processes except for breathing and some brain function cease. While in hibernation, they can survive high temperatures up to 950 C and low temperatures bottoming at around -240 C. The only way to kill a hibernating Rock Human is to either break through their rocky shell, or to suffocate them. Every 6 years, during hibernation, they will molt their old bodies and change themselves into a slightly different form. Rock Humans can eat any organic matter without issue, either raw or cooked. However, if the organic matter has little nutritional value, more of it must be consumed. For some unknown reason, all Rock Humans are deathly allergic to mangos. Rocks Humans tend to live on the outside of Humantowns or countries, preferring to live in the wild.*

Note: While extremely rare, some animals share the same traits as Rock Humans, including possessing a Stand.

Racial Features (Definitions in the Abilities section)

- Stoneflesh
- Stone Cold Willpower
- Mysterious Disappearance

ARTIFACTS/LOCATIONS

CONDUCTIVE CLOTHING

Description: Certain clothing may be crafted with the express purpose of conducting The Ripple and its energy. Such clothing is often very expensive to make, as there are few materials that conduct The Ripple so effectively. The best conductors are the yarn of the Satiporoja Beetle, silk, and wool. Most wet clothing also acts more than adequately.

Effect: Ripple Energy can easily be sent through Conductive Clothing, allowing the clothing to act as a conduit for the energy. Additionally, if the clothing is connected to the ground it may also be used as a ground for The Ripple. The Ripple operates similarly to electricity, and so some Undead creatures may use a certain type of Conductive Clothing known as an Anchor as a way to cover their weakness to The Ripple. Any Undead creature that wears Conductive Clothing takes double damage when attacked directly by The Ripple, but take half of the normal damage that they would take if wearing an Anchor.

STAND ARROW

Thousands of years ago, a meteor fell from the sky, upon which was an alien virus. Early Humans stumbled upon this, and saw great potential in its power. The infected metal from the meteor was crafted into arrowheads with the ability to awaken abilities in those with potential.

Description: *A simple arrow, made of wood and metal, around 50 centimeters long with the regular wooden shaft taking up most of that length. However, the Stand Arrow maintains its effect even when the shaft is broken or missing. The only important part is the arrowhead itself, and even fragments of the arrowhead still function. Some of the arrowheads have unique identifying features, such as a large beetle on one of them.*

When a living creature's skin is pierced by this Arrow they will develop a fever over the course of several days. The severity and duration of the fever is dependent upon the physical build, and fighting spirit of the exposed person/creature. For example, Jotaro Kujo seemingly had no physical effects for almost no time at all, while Hermes Costello was rendered comatose for almost a week. After recovering from this fever, the creature will awake to find themselves the user of a Stand.

However, some people do not possess enough will to properly control a Stand. These people will continue to suffer under the effects of the fever. They will feel very weak and become bedridden within a couple of days of exposure. Every day, someone under the effects of this disease (inability to control a Stand) must roll a Con Saving Throw with a DC of 8. If the creature succeeds, their condition remains stagnant, but if they fail the creature loses 1 maximum HP. If their maximum HP drops to 0 or less, they slip into a coma, and if the creature's maximum HP gets lower than the inverse of their normal max HP, they succumb to their Stand, and die.

The Arrow also has a secondary effect, the Power of Requiem. In order to obtain the Power of Requiem, you must fulfill two requirements, as well as have possession of the arrow. You must first be a Stand User who has brought your Stand close to its full potential, and one who is accustomed to using its power. Not only that, but you must have a specific resolve or goal that is immensely powerful and overtakes everything else in your life. If both of these requirements are met, the Arrow may choose you.

Examples of Requiem Stands: Killer Queen Bites the Dust, Chariot Requiem, GER.

Requiem

The Arrow also has a secondary effect, the Power of Requiem. In order to obtain the Power of Requiem, you must fulfill two requirements, as well as have possession of the arrow. You must first be a Stand User who has brought your Stand close to its full potential, and one who is accustomed to using its power. Not only that, but you must have a specific resolve or goal that is immensely powerful and overtakes everything else in your life. If both of these requirements are met, the Arrow may choose you.

Examples of Requiem Stands: Killer Queen Bites the Dust, Chariot Requiem, GER

Rejection: If you are a Stand User of Level 15 or below even if you pierce your Stand with the arrow nothing will happen. However, if you possess the technique and experience but not the needed resolve, your Stand will turn on you, attacking you and preventing you from touching or getting it to touch the arrowhead.

If you are Level 15 or above you must be determined to be worthy, which is done by rolling d8s. You may spend as many saved points of Inspiration as you wish, with each one resulting in rolling another 1d8. In order to be accepted by the arrow and obtain the power of Requiem, your final roll must be more than 50. If your roll is lower than 50 your Stand will not function, making you effectively stunned for one turn. After this turn, your Stand (and your control over it) returns to normal.

Activation of a Requiem Stand: In order for the Power of Requiem to activate, the arrow must be buried within your or your Stand's flesh, to the point where the arrow will begin to embed itself into your body, dealing 3d8 Stand Piercing damage (this cannot be reduced). If you survive this, you (and your Stand) may not move for one turn. At the start of your next turn your Stand will disintegrate, leaving an empty husk upon the ground. After the turn of exposure you may expend as many Hit Dice as you wish, so long as you still have not used those Hit Dice, as though you were taking a Short Rest. The damage and healing only happens the first time that you are successfully exposed to the arrow's Requiem-giving ability.

Requiem Stand Traits: Design Change. Physical Change, Surging Energy, Enhanced Ability, Requiem Ability

STONE MASK

Around ten thousand years ago, a genius named Cars sought a way to conquer the weaknesses of his people, the Pillar Men. Through countless hours of research, hundreds of test subjects, and perseverance, Cars was able to create the Stone Mask, a device that creatures may use to enhance themselves by shedding their mortality, at a cost.

Description: A simple stone mask with a human face upon the front upon it and a single fang sticking out of the mouth. Most Stone Masks are roughly 20-30 centimeters tall and 10-15 centimeters wide. The inside is indented, as if made to be worn. When activated, roughly eight hollow stone spikes shoot out of the side of the mask. There is also a small crater in the front of the mask, seemingly made to hold a stone of some kind.

Effect: Activation requires at least 1 oz of blood from the same species as the wearer to be in contact with the front of the Mask. It will then shake for roughly 3 seconds before the stone spikes shoot out of the mask at a speed of roughly 10 meters/second, aimed to pierce the brain of the wearer. Roughly 10 seconds after the initial exposure to blood the spikes will retract. When worn by a creature, Human or otherwise, they become the pinnacle of their species. Most become a Vampire, but if the wearer is a Pillar Man they become an Enhanced Pillar Man.

Note: If combined with the Red Stone of Aja, this artifact will become the Completed Stone Mask.

THE RED STONE OF AJA

Description: Sometimes called the Super Aja, this is a perfect and beautiful red gemstone that was passed down generations of Ripple users for around 2000 years in order to protect it and keep it out of the hands of the Pillar Men. It is said it absorbs and reflects light millions of times within, empowering the effects of The Ripple and creating a focused, high-energy beam.

Effect: When Light or The Ripple is sent into The Red Stone of Aja, a laser dealing 1d20 + 10 Radiant damage is produced. The laser cannot be properly aimed when attacking a target more than 5 meters away. It doesn't matter how powerful the light or Ripple energy is, as regardless of the power of the input, the light / energy will be reflected until the Stone can no longer hold it.

Note: If combined with a Stone Mask, that mask will become the Completed Stone Mask.

LOCACACA FRUIT

Description: The Locacaca Fruit is a fruit with unusually potent and rapid healing abilities, but such healing comes with a cost. In order for the effect of the Fruit to take place, one must eat at least $\frac{2}{3}$ of one instance of the Fruit. These fruits are exceedingly rare, only found in New Guinea, and are still extremely difficult to find even then. If an expert on the Fruit is able to get their hands on it they could grow many of them, but because it is so rare experts are rare as well. The Fruit typically grows on small, bush-like trees, usually in sets of 1-3 per tree. They are very similar to figs, being close in smell, taste, and appearance, but are pink in color with small spikes on the outside of the fruit.

Effect: Upon consuming over $\frac{2}{3}$ of a Locacaca Fruit, your Hit Points are brought up to maximum and any permanent illness or hindrance that has been plaguing you, such as a birth defect or other improper formation in the human body, disappears entirely. The Fruit will also regrow limbs, organs, or tissues that have been damaged, destroyed, or modified in some way. The Fruit can also be force-fed to someone, or given to an unconscious person. It may also be used to heal a side effect caused by previous consumption of the Locacaca Fruit. When you consume enough of a fruit and gain the healing effect caused by it you must roll a d20 and receive a detriment from the following table:

| Number Rolled | Part Turned To Stone | Effect |
|----------------------|-----------------------------|--|
| 1 | Inner Heart Valve | 1 Force damage at the start of each turn (every 6 Seconds), this damage cannot be reduced or removed in any way. |
| 2 | Inner Brain | Gain 5 Levels of Exhaustion and fall into a coma. |
| 3 | Stomach | Food (other than the Locacaca Fruit) may no longer be digested, and stomach acid will begin to leak into the body after 6 hours. |
| 4 | Small Intestinal Fragment | Results in half-digested food being pushed into the body, outside of the organs. |
| 5 | Anus | Improper solid waste disposal, which will eventually result in an intestinal rupture, likely within the next few days. |
| 6 | Left Arm | Past the elbow, the left arm becomes unusable. |
| 7 | Right Arm | Past the elbow, the right arm becomes unusable. |
| 8 | Both Feet | From the ankles down, the feet become totally unusable and walking speed is reduced by 5 meters. |
| 9 | Lung | Chest feels heavy, half lung capacity, easily winded and, cannot take the Dash Action. |
| 10 | Left Ear | Lose hearing in the left ear. |
| 11 | Right Ear | Lose hearing in the right ear. |
| 12 | Jaw | Inability to speak properly or chew food normally. |
| 13 | Left Eye | Lose sight in the left eye. |
| 14 | Right Eye | Lose sight in the right eye. |
| 15 | Appendix | Minor, continued discomfort in the abdomen. |
| 16 | Left Kidney | The left kidney shuts down completely. |
| 17 | Right Kidney | The right kidney shuts down completely. |
| 18 | Teeth | Regular teeth fall out and are replaced with stone teeth in the same shape. |
| 19 | Nose | Lose ability to breathe through the nose, as well as all sense of smell. This also alters the sense of taste. |
| 20 | Reproductive Organs | Sterility |

COMPLETED STONE MASK

The Stone Masks were too weak to pierce the brains of the Enhanced Pillar Men, so Cars sought to perfect the Mask with the addition of another powerful artifact.

Description: The Completed Stone Mask is a combination of one of Cars' Stone Masks and the Red Stone of Aja. As such, it has the same appearance as the Stone Mask, but with the addition of the perfect red crystal embedded in it.

Effect: The Completed Stone Mask is activated when the Red Stone of Aja is exposed to direct light. When activated it glows violently and latches onto the wearer in the same way as the Stone Mask. After activation the wearer temporarily loses consciousness, awakening after one turn (or 6 seconds). The Stone Mask then crumbles, leaving only the Red Stone of Aja. The Wearer, if they were a Level 20 or higher Enhanced Pillar Man or Vampire, becomes an Ultimate Being. However, if the wearer does not fall into one of the aforementioned categories, they take 100d10 Radiant damage that cannot be resisted, reduced, or avoided, and the affected individual does not become an Ultimate Being.

THE DEVIL'S PALMS

Hundreds of years ago, one of the strongest beings to walk to the face of the Earth perished in North America. When he died, the ground itself split, and power flowed through the Earth itself, saturating it with excess energy.

Description: There are 4 known Devil's Palms, and they are notoriously difficult to find as the Palms move slowly over time. The locations of the Palms are: The Arizona Desert, West of Chicago, South Carolina, and the Rocky Mountains. Each Palm is harsh and unforgiving, with very little life in them.

Effect: After entering a Devil's Palm only those with strong wills may find themselves able to leave. those who possess strong willpower may still find themselves stranded for days or weeks on end. However, those able to escape will find that they have gained a new ability in the form of a Stand. Very rarely, the Palm may even reveal a part of the Holy Corpse, which they exist to protect, to someone.

THE HOLY CORPSE PARTS

Hundreds of years ago, a creature of nigh immeasurable power perished on the continent of North America. This creature's power was so immense that the corpse left behind did not rot, instead becoming mummified in some sort of unknown supernatural manner. Not only that, but power still remains within the body parts, as well as the soul of the deceased being. This power can awaken potential within peoples' souls, as well as perform miracles independently of any other living creature.

Description: Each individual part appears as a mummified body part with little to no flesh, hidden and protected within a Devil's Palm unless already discovered by someone else. The individual parts are:

Heart, Eyes, Ears, Left Arm, Right Arm, Both Legs, Spine, Rib Cage, Skull

Residual Power: Anybody coming into contact within the Corpse Parts either gains a Stand, or the ability to view Stands if you do not possess the needed willpower. However, if you do not possess the willpower to gain a Stand, another ability independent of Stands may manifest, allowing you to better protect the Corpse Parts (for example, Gyro's Scan), However, when you relinquish or give up a Corpse Part you will no longer have this gained power. If you are given a Stand (or the ability to see them), however, you keep it.

Reconnection: Once one of the corpse parts is unearthed, fate itself will ensure that the parts will slowly begin to attract one another over the course of time. It could take anytime between days and years for The Holy Corpse to become reconnected once unearthed but rest assured, once one part is unearthed, the parts will eventually come together until it is either complete, or each part is individually reburied.

Pocket Dimensions: When coming into contact with the Corpse Parts they will meld to flesh and nestle themselves within a pocket dimension that aligns with the corresponding Corpse Part. For example, if the Right Eye is obtained the Corpse Part will meld into the holder's right eye. If the holder of the Corpse Part is knocked unconscious the Corpse Part(s) become exposed and they may be removed from their current host. They may also be removed/exposed by their current host at will.

Holy Mark: Sometimes, when a Holy Corpse Part takes up residence within a living host, it leaves a visible mark upon the body that gives a clue as to where to find the next part to be unearthed.

THE COMPLETED HOLY CORPSE

Once the entire Corpse is brought together, the Parts fuse and form a complete body. Once together, the one who possesses the Corpse gains abilities of unique strength and immeasurable fortune. When one obtains the corpse, they will find that only good fortune will meet them, both in a tangible, physical manner, as well as good things slowly accumulating over time. However, The Holy Corpse cannot stay inside of a human in the same way that its individual parts can. In order to use The Completed Holy Corpse, the user must stay within 10m of it. The last one to touch The Corpse is the one that gains the Corpse's powers.

Love Train: This ability is the physical manifestation of luck in a quantitative, tangible way, an effect that may manifest around anybody who is currently in possession of The Completed Holy Corpse. It is an ability that has several sub-abilities, which are listed below. Additionally, while Love Train is active, The Corpse may not be touched by anybody else, as it is protected by a forcefield.

Incalculable Fortune, Vicious Misfortune, Gravitational Pull, The Wall

HEAVEN

Description: Heaven is the highest possible form that a Stand User can achieve. While becoming an Ultimate Being is the path to physical perfection, achieving Heaven grants a Stand of perfection. However, across several universes, only two beings are known for achieving Heaven. Heaven Stands are a kind of evolution that grants the user an ability that surpasses all others, including evolved Stands such as Requiem Stands, or Stands evolved through use of Golden Evolution. However, in order to achieve a Heaven-Ascended Stand one must follow a very specific set of rules and guidelines that, if not followed exactly, will result in failure, requiring the failed step(s) to be repeated properly.

The Steps

- **Step 1:** Obtaining a Stand of Great Power - In order to gain a Heaven Stand, you must have a Stand that has been brought up close to its highest potential (Level 20 or higher). Once you get a Stand of this much great power, information telling you how to ascend to Heaven (descriptions of Steps 2-4) have a possibility to appear in your dreams and subconscious through informational fragments. Most Stand Users who hear these whispers ignore them or don't hear them at all. Upon waking up from sleep you may make an Intelligence Check with a DC of 20. Upon failing you forget your dreams and upon success you may write down the process of either Step 2, 3, or 4. You may make this Intelligence Check every time you awake from a sleep of 6 hours or more. Also, if you know at least one step, you gain the understanding that this process will result in your Stand evolving and gaining an ability of immense power.
- **Step 2:** Obtaining a Selfless Friend - You must have a link to somebody capable of achieving a very specific goal, with the willpower to overcome temptation and obstacles. This must be somebody without interest in prestige, power, wealth, sexual desire, or following the laws of Humans (whether that be literal and moral). In order to complete this step you must literally, physically fuse with this friend, where every part of them (except their soul) will be destroyed in the process. In order for this to happen your friend must sacrifice themselves willingly, knowing what will happen to them.
- **Step 3:** The 36 Souls - You must find 36 Sinners. A Sinner, in this case, is a person who has committed an act of great depravity (such as murder) who feels little or no remorse for their actions. You must gather these Sinners within 10 meters of each other and kill them all within 1 minute of each other. The method of killing does not matter, so long as their brains all stop functioning within the minute. When this happens, your Stand will begin to undergo a painful but necessary transformation.
- **Step 4:** The Code - There are 14 phrases that one must repeat 500 times, in order, correctly. This step may take as long as needed, being all consecutive or even over the course of years. You may also go through other actions in between saying these phrases, and you may also say anything you'd like in between. These phrases may be spoken in any language so long as their meaning remains the same, except the Latin words which must be spoken in Latin. The phrases, in order, are:
 1. Spiral Staircase
 2. Rhinoceros Beetle
 3. Desolation Row
 4. Fig Tart
 5. Rhinoceros Beetle
 6. Via Dolorosa
 7. Rhinoceros Beetle
 8. Singularity Point
 9. Giotto
 10. Angel
 11. Hydrangea
 12. Rhinoceros Beetle
 13. Singularity Point
 14. Secret Emperor

- **Step 5: The Location** - This is different for every Stand User. In order to achieve Heaven, the final step is to go to a very specific location. Immediately after completion of Steps 2, 3, and 4, you know the exact Latitude and Longitude of where you must go. This location may be a place of great power, personal importance, a place where different elements meet, or otherwise. Regardless, your DM gives you the exact coordinates, along with the elevation from Sea Level. This number could be anywhere from Sea Level, to 1km above Sea Level. You may have to dig or find a way to go upwards in order to fulfill this final requirement, but you should not have to dig down more than 10 meters. Upon reaching this point roll 1d20 to determine how many hours you must wait to achieve Heaven. You must only be in the specific location for a very short amount of time for the timer to activate, as when activated, the timer may not be stopped. While the timer is counting down your stand goes through a transition.

Transitory Stand: Upon completing all 5 steps, your Stand is destroyed and replaced with a different one until the timer hits zero. This Stand is very powerful, at a Level equal to yours, and is produced in order to protect you until the timer runs out. It takes some of the physical characteristics and personal traits that your sacrificed friend from Step 2 had before they were obliterated, as well as some aspects of your previous Stand. This Stand's abilities exist almost completely to protect you, and as such, the abilities for this Stand are often defensive or reactionary in nature. When the timer runs out this Stand is destroyed and replaced with your Heaven-Ascended Stand.

Heaven-Ascended Stand: You've done it. It's taken sacrifice, struggle, time, and the lives of 36 Sinners and a good devoted friend, but you've finally attained perfection. A Heaven-Ascended Stand is the absolute strongest a mortal can ever hope to become, with their Ability being stronger than the powers of The Holy Corpse, a Requiem Stand, and a Golden Evolution Stand combined. This Stand is the same Level as you are, and can be any Stand Type you'd like. It has stats equal to a similar Stand as it's Level, unlike its other Evolved counterparts, but what really sets it apart is its ability. Your Stand Energy is multiplied by 10, and you regain 10 Stand Energy at the start of each of your turns. You gain a [Heavenly Ability](#) on top of your normal Abilities. You may make the Heaven-Ascended Stand's design either a rework of your original Stand's design, or an entirely new design. Heaven-Ascended Stands typically have 'Heaven' somewhere in their name, but this is not necessary.
